

ISTE Seal of Alignment Application

Dimension 1

User Interface and Agency

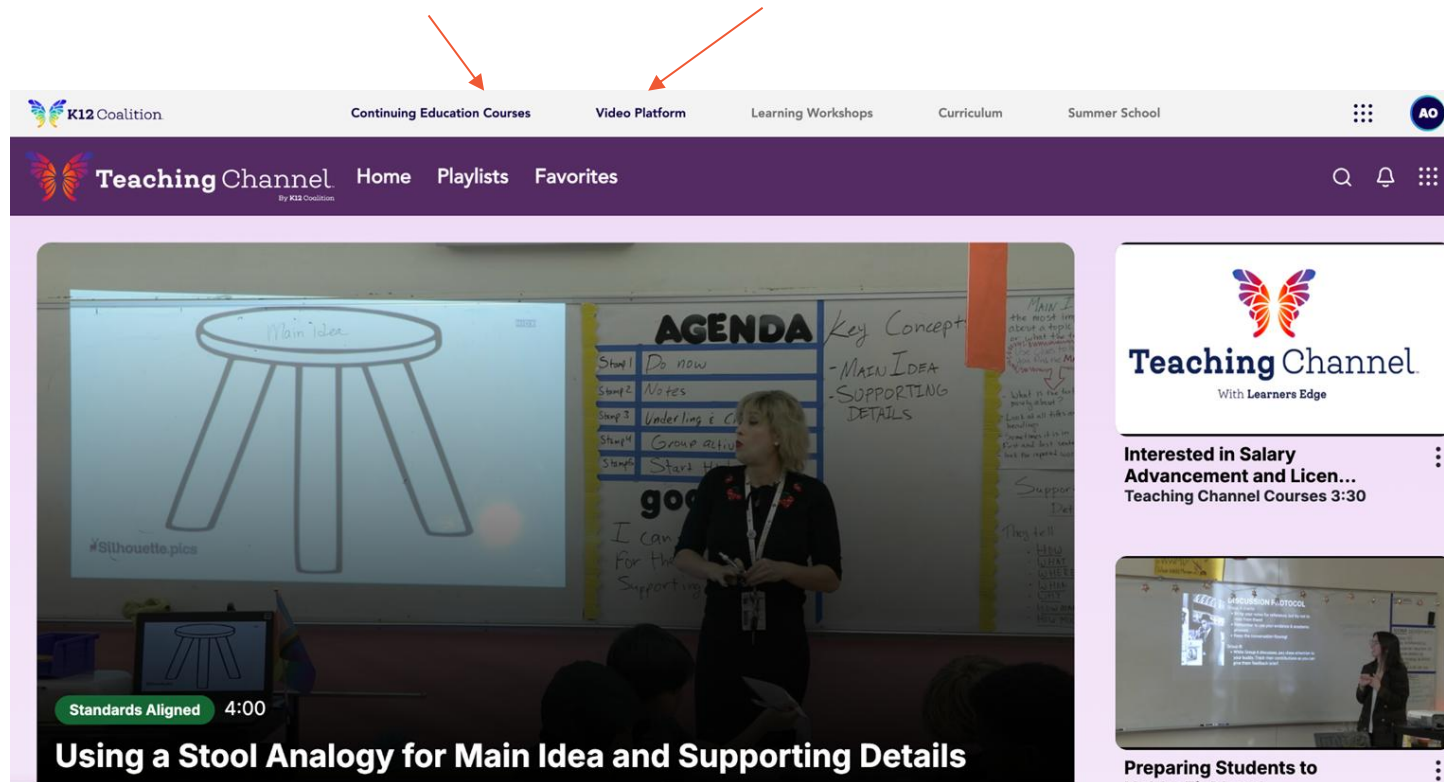

The design of the product interface and user experience helps the learner quickly and reliably achieve professional growth goals. This dimension includes features related to interface design, learnability, navigation, maximizing time on task, control over actions, and general usability.

1.1 Value Proposition

Teaching Channel connects video-based professional learning to classroom practice. Educators can explore classroom examples, organize relevant videos into playlists, and reflect on instructional strategies.

With enabled coaching tools, educators can upload their own instruction, document professional goals, and exchange timestamped feedback with eligible coaches and peers.

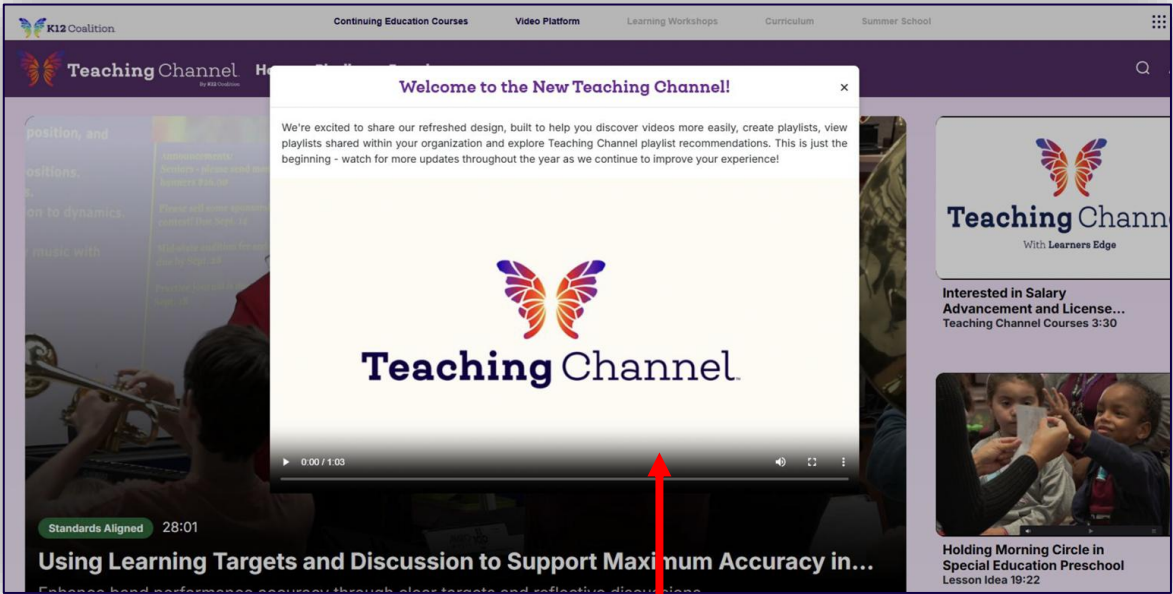

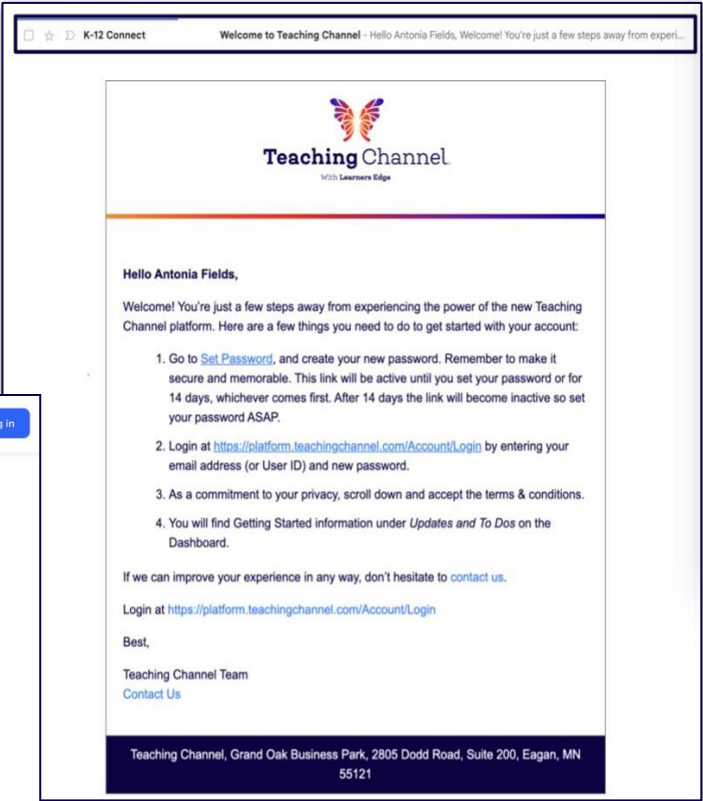

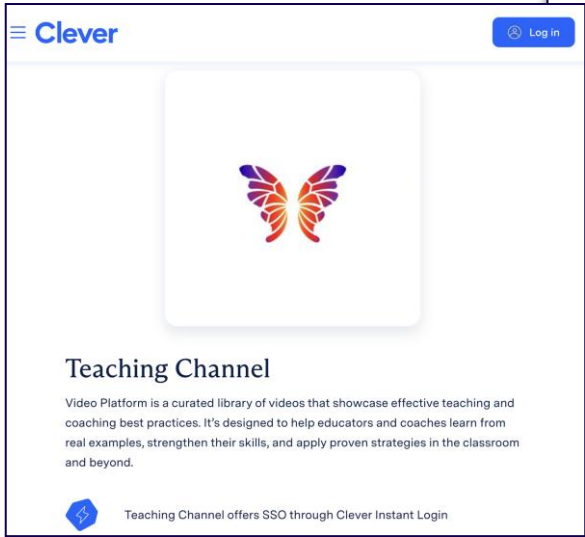

These tools support an ongoing cycle of observation, application, reflection, and feedback aligned to individual, school, or district priorities.

1.2 Learnability

The platform introduces users to its core features through onboarding guidance and a welcome video. Account setup and available features depend on the organization’s configuration. Organizations with configured SSO or LMS integrations can provide an additional route to the platform.

The welcome email shown here provides account setup and support links. Confirm the current email template when preparing reviewer access.

The welcome pop-up introduces the platform and its video library. Users can then explore the features available to their account.

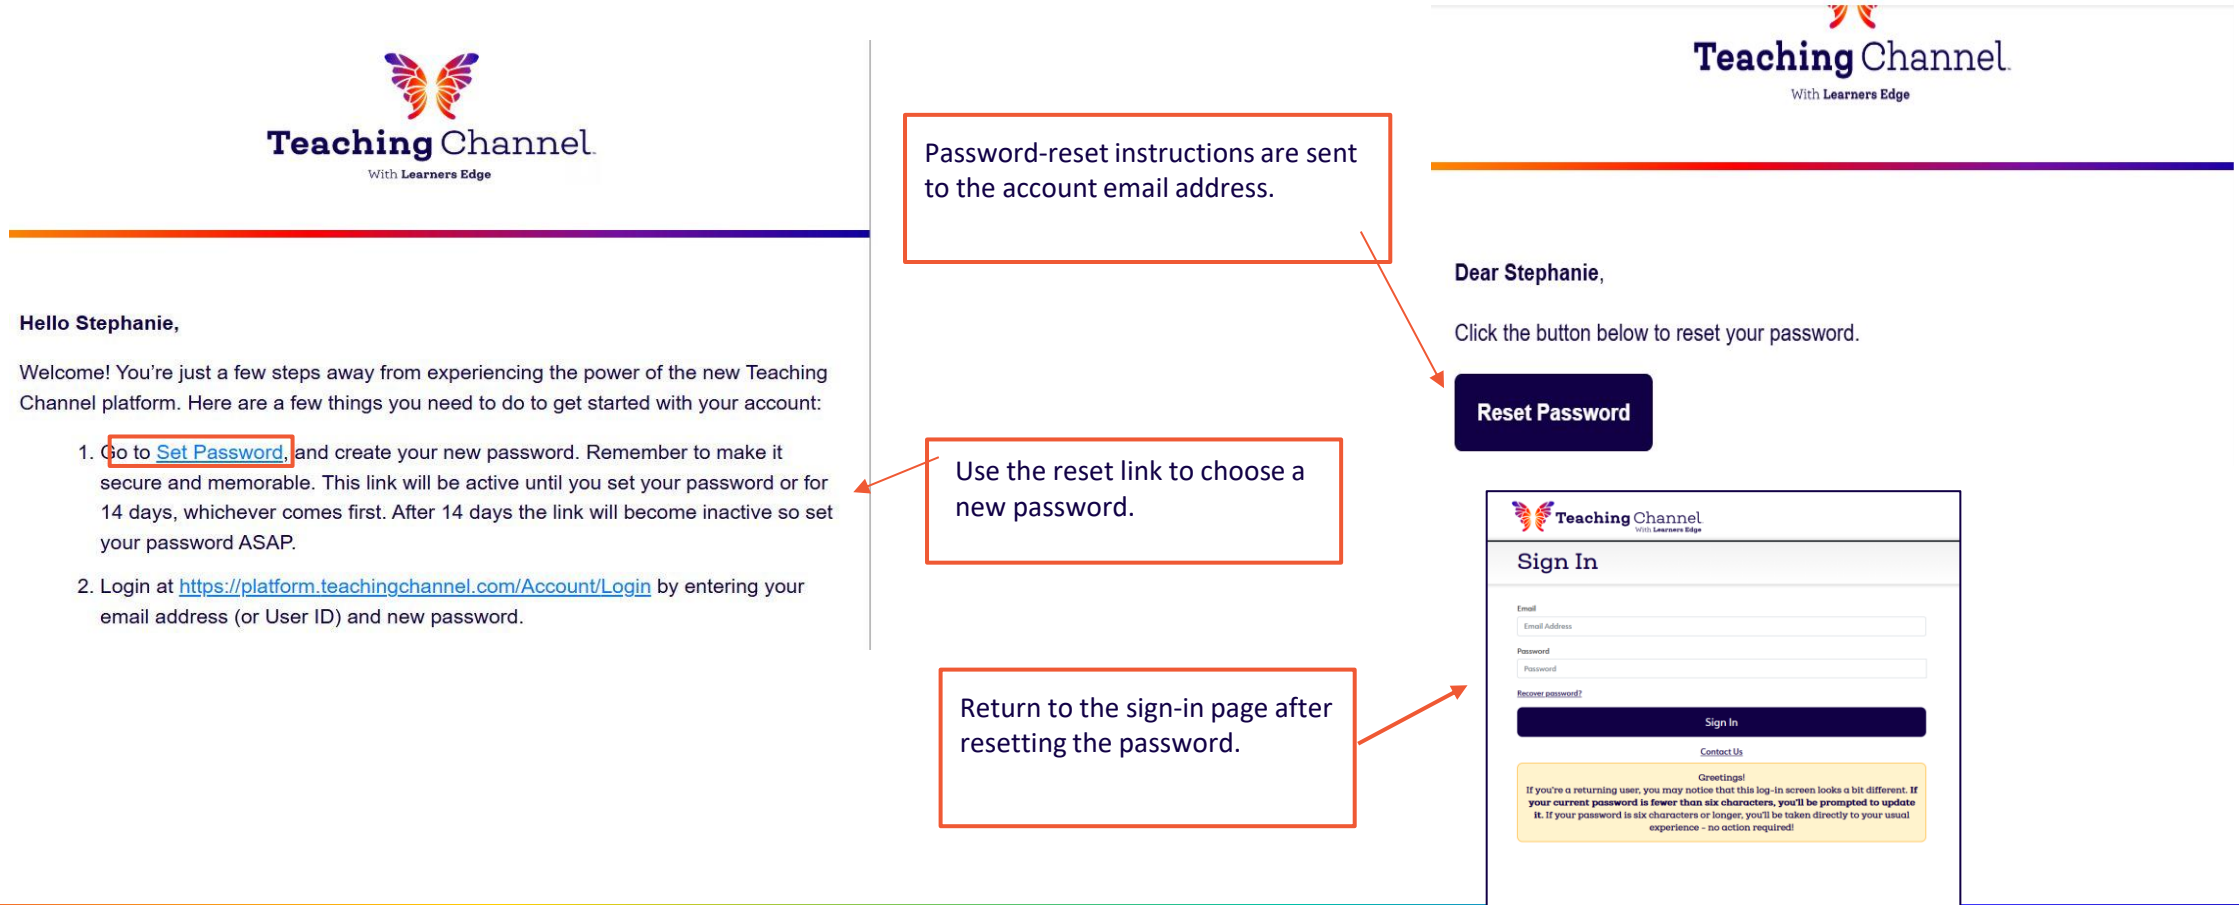

1.3 Login

Users with an activated account can sign in with their email address and password.

Bookmark the platform sign-in page:

<https://auth.k12coalition.com/connect/login?src=platform>

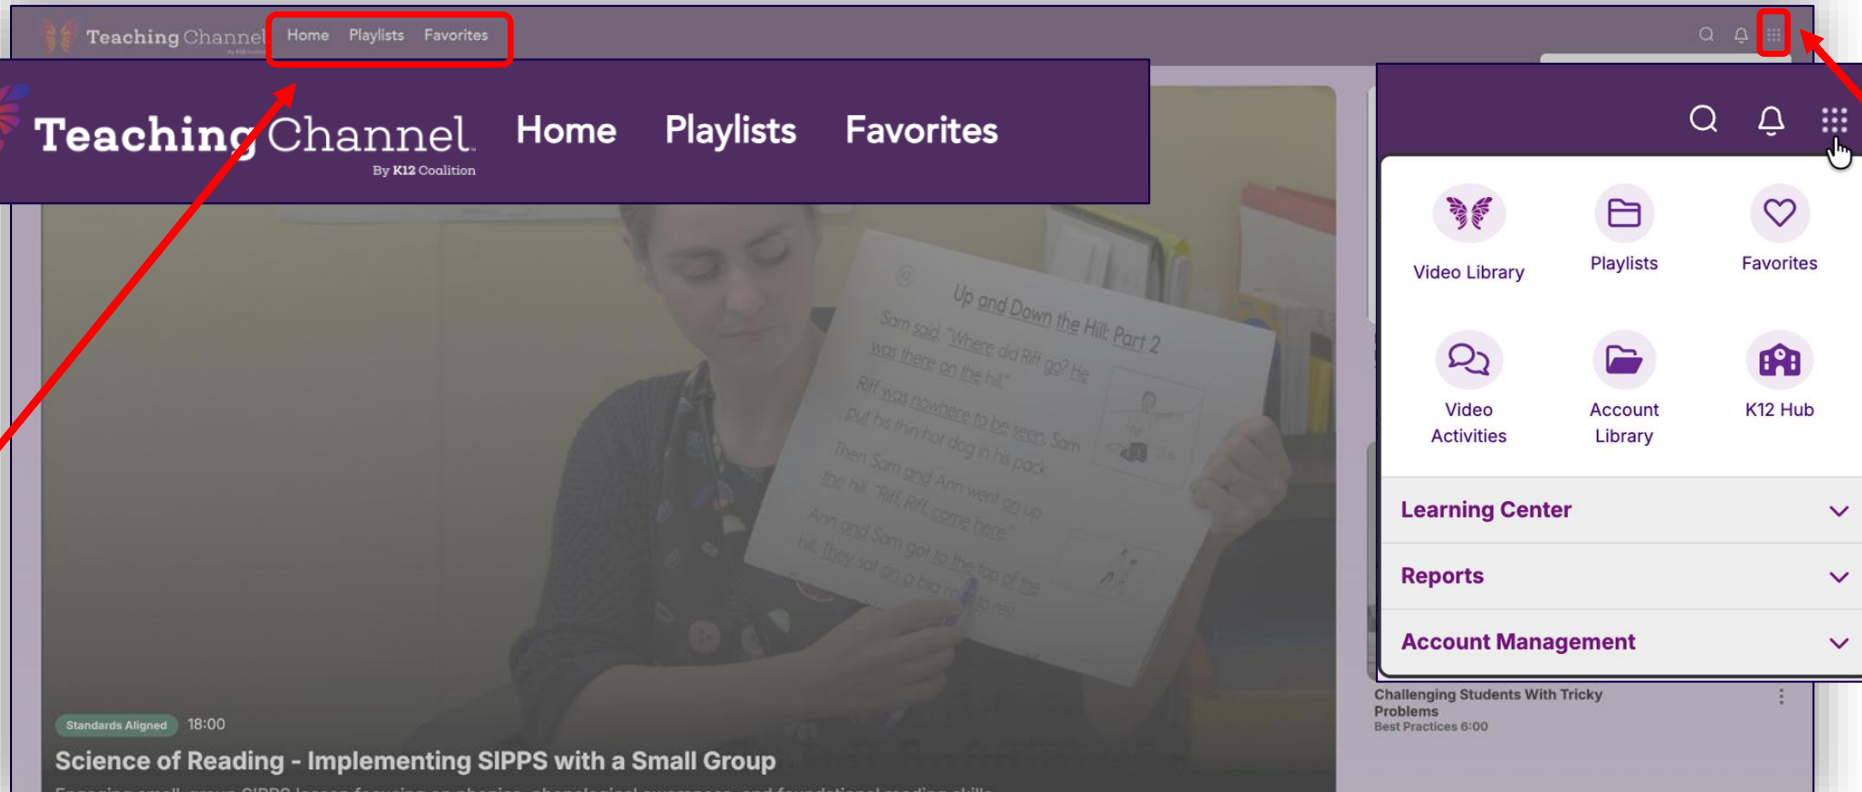

SSO and LMS access require configuration by the organization. Provide reviewers with the sign-in route and roles needed to reproduce the submitted evidence.

1.4 Navigation

The home page provides a starting point for browsing videos and returning to saved resources. The top navigation includes Home, Playlists, and Favorites. Additional tools appear in the application menu according to the user's role and enabled features.

Use the top navigation to open Playlists and Favorites or return Home at any time.

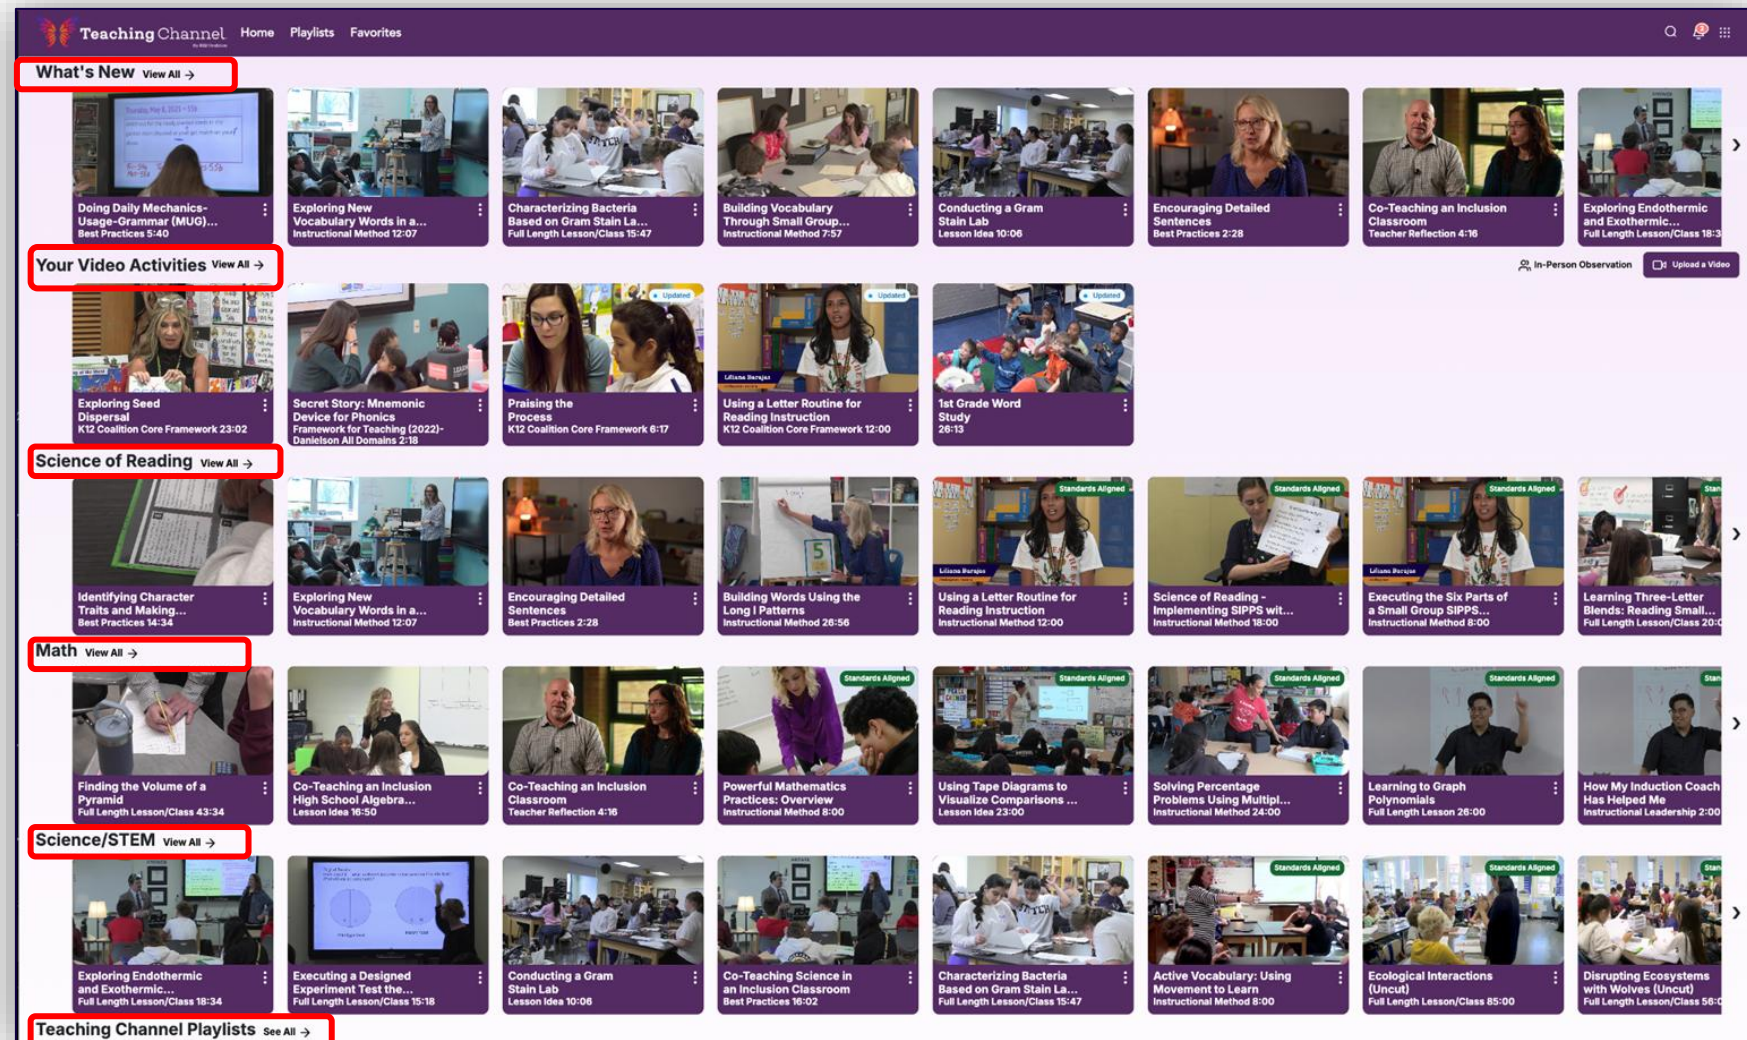

Open the application menu to see available tools. Video Activities and Reports depend on role and access.

1.4 Navigation (Continued)

The home page provides a starting point for browsing videos and returning to saved resources. The top navigation includes Home, Playlists, and Favorites. Additional tools appear in the application menu according to the user's role and enabled features.

Browse featured video collections from Home, then open saved playlists or available Video Activities. Collections and dashboard sections vary by account.

1.4 Navigation (Continued)

The home page provides a starting point for browsing videos and returning to saved resources. The top navigation includes Home, Playlists, and Favorites. Additional tools appear in the application menu according to the user’s role and enabled features.

1.5 Interface Design

The home page emphasizes video discovery. Home, Playlists, and Favorites remain accessible in the top navigation, while additional tools are grouped in the application menu. These repeated controls give users consistent ways to move between content and saved resources.

Teaching Channel

[Contact Us](#)

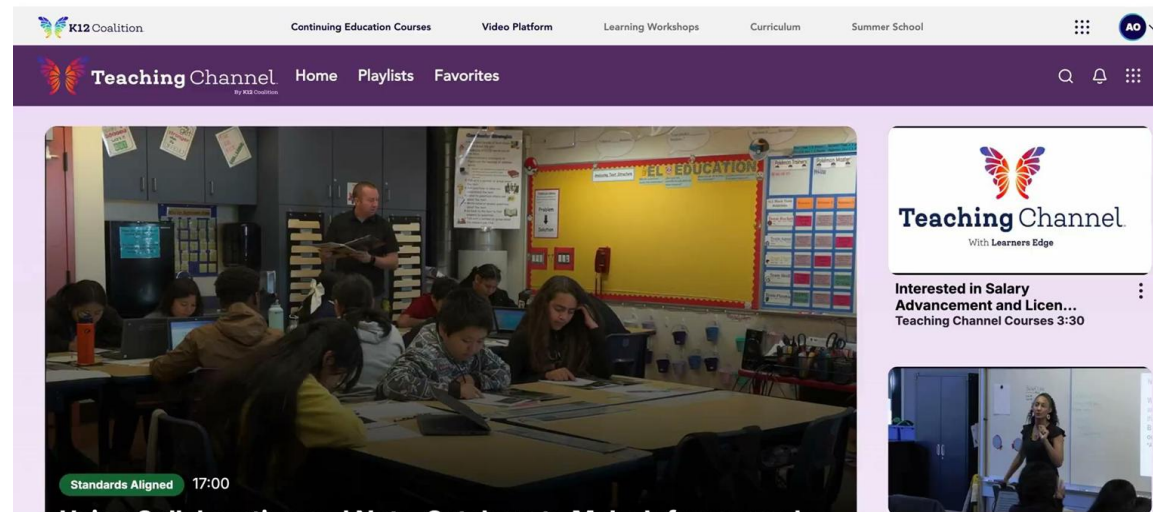

District Portal or LMS Users

If you access Teaching Channel via Single Sign-On (SSO) or LMS, please return to that original access point to relaunch Teaching Channel. Examples of SSO or LMS include Clever, ClassLink, Google, Microsoft Entra, Canvas, Schoology, Brightspace D2L, Blackboard. If you have any questions, please reach out to your district or institution for support.

1.6 Discoverability

The library provides search and visible filters to help educators find relevant classroom examples. Users can explore content by grade, subject, topic, or duration and review the resulting video cards before choosing a resource.

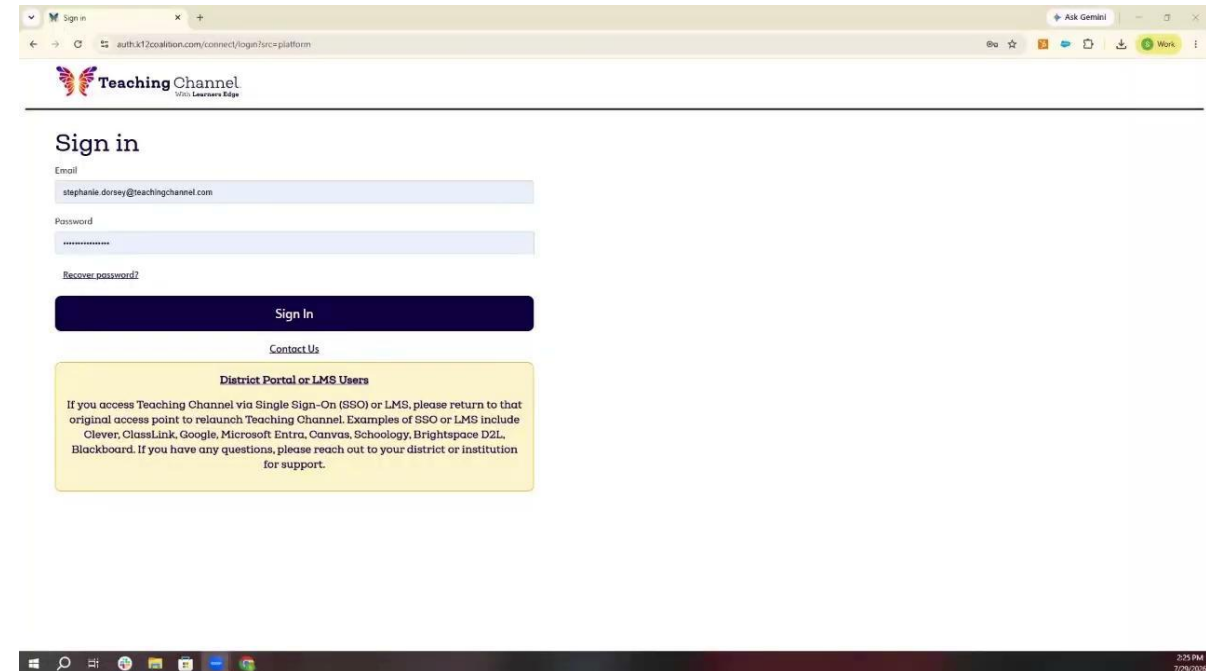

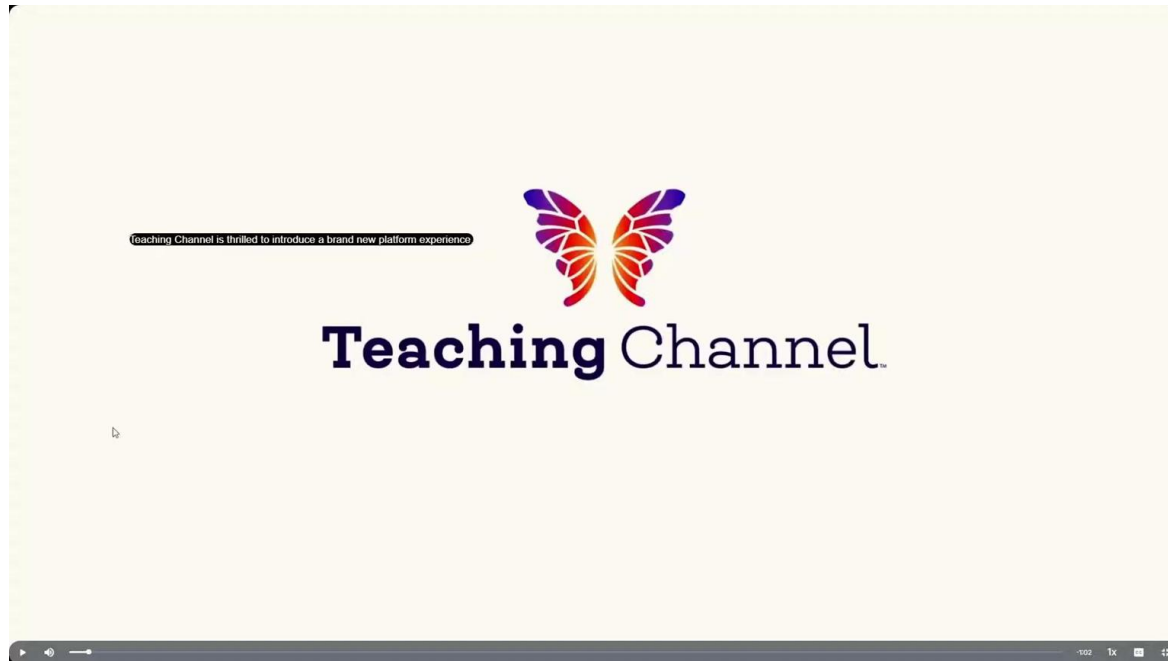

Standards filtering is available with the appropriate license. Use the standards selector to explore aligned content; do not assume it combines with every other filter.

1.9 Technical Support

Teaching Channel provides onboarding guidance and support resources to help users begin using the Video Platform. The supplied examples introduce the platform and access process.

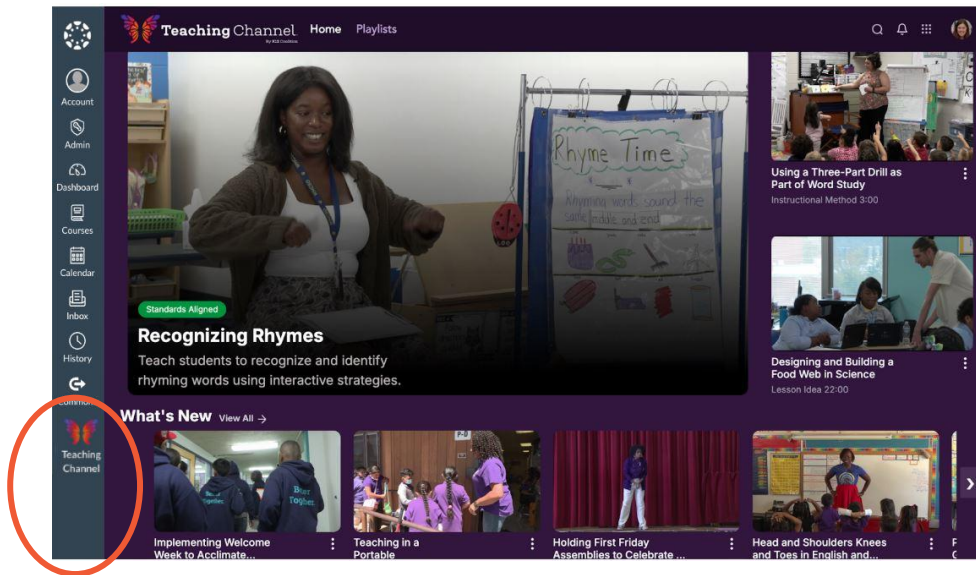

Implementation assistance depends on the organization's service arrangement. Confirm the assigned support contact and current Video Platform help resources before submitting reviewer access.

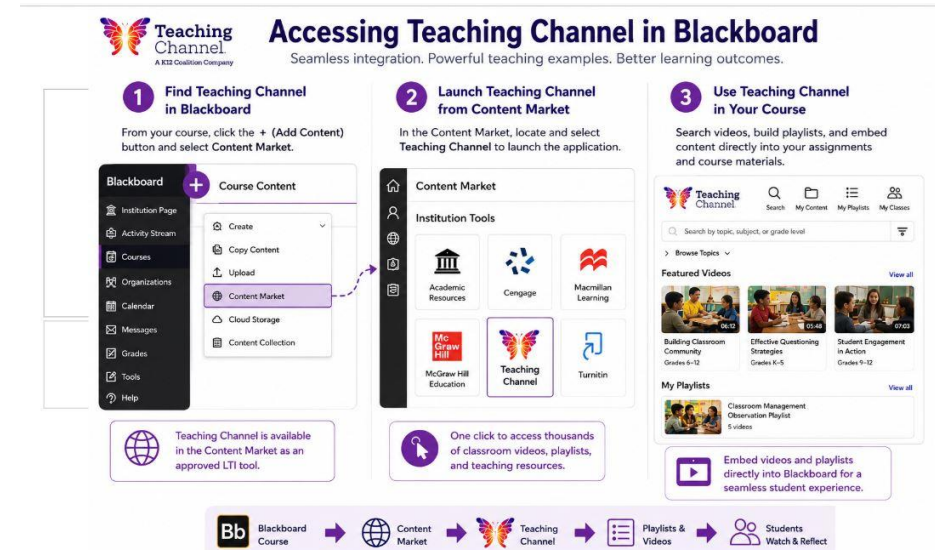

1.10 Interoperability

The Video Platform implements LTI 1.3 launch and content-selection workflows for configured LMS integrations. Schools can make platform videos and playlists available within their learning environment.

The supplied screenshots show integration examples. Reviewers need a configured LMS account and launch route to reproduce the complete workflow.

Global Access from the LMS, Canvas, through LTI Integration

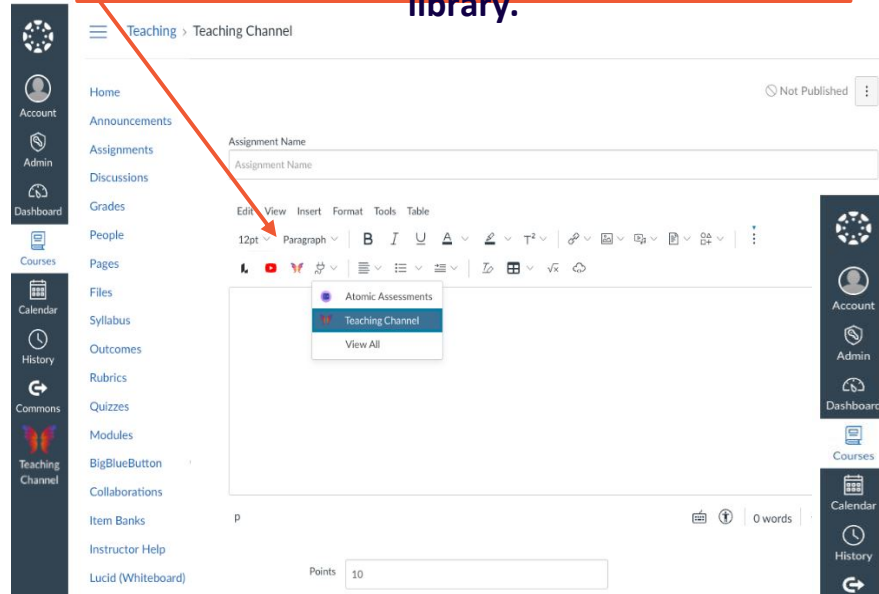

Access for LMS, Blackboard, through LTI Integration

1.10 Interoperability (Continued)

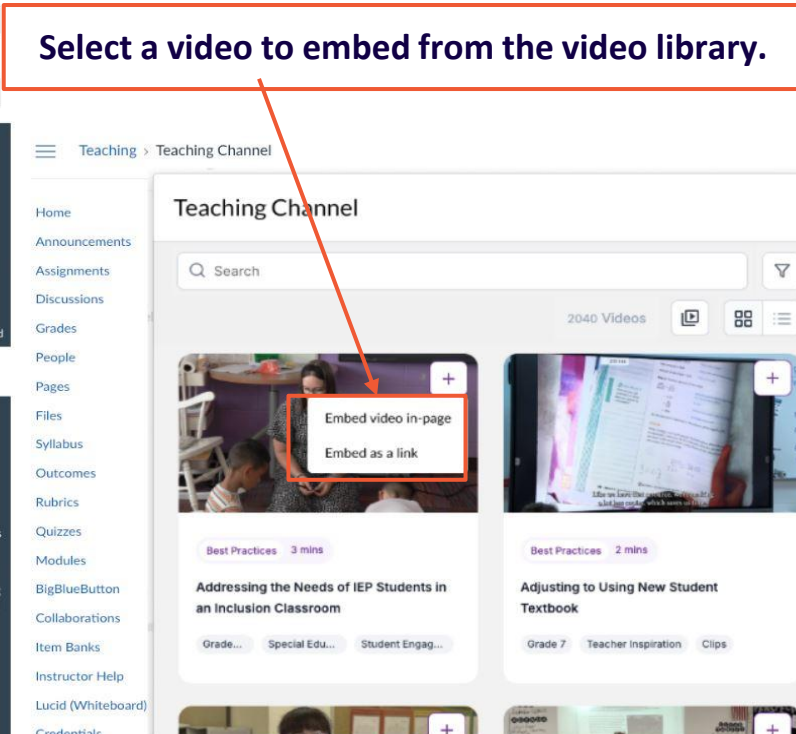

In a configured integration, users can select Video Platform content for use within LMS assignments or modules. The implementation supports video and playlist content items and uses identity and role information to establish platform access.

The screenshots illustrate content selection and embedding; access depends on the LMS and organizational configuration.

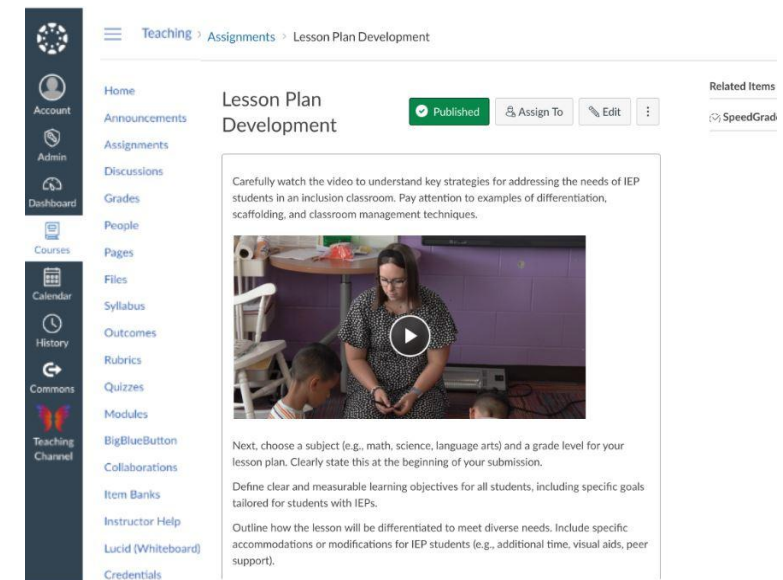

Select Teaching Channel to access video library.

Select a video to embed from the video library.

Video is now embedded in the course assignment.

1.11 Data Privacy

Teaching Channel publishes a Privacy Policy describing information collection, use, sharing, retention, and safeguards. The policy also states that Teaching Channel does not sell personal information.

Users and organizations can review the policy to understand the stated data practices and privacy rights. The platform's first-login terms include a link to the policy.

Terms & Conditions - PLEASE SCROLL DOWN AND ACCEPT TERMS TO CONTINUE

Teaching Channel's Service Terms & Conditions and Platform Use

Updated: August 16, 2023

Service Terms & Conditions

These terms and conditions ("Service Terms & Conditions") governing services ("Services") provided by Teaching Channel Inc. ("Teaching Channel," "we," "us," and "our") cover various platform subscription types and are subject to the Teaching Channel Terms of Use and Copyright Terms that follow these Service Terms & Conditions. Capitalized terms shall have the meaning set forth in the Terms (as defined below).

Terms of Use and Copyright Terms

Welcome to Teaching Channel. The Platform (as defined below) is operated by Learners Edge, LLC, doing business as K12 Coalition, and its subsidiary, Teaching Channel, to provide you with quality, impactful professional development resources. These Terms of Use Agreement together with any documents referred to therein, including our Privacy Policy, the "Terms" apply to (1) ordering, purchasing, and participating in Teaching Channel courses ("Courses"), (2) your use of our website ("Site") or other services offered at www.teachingchannel.com (effective December 19, 2019, www.teachingchannel.com), and (3) our online education portal and any mobile application we develop utilizing the tools from this Site (collectively with content, Software (as defined below), Courses, and course materials we provide, in whole or in part, our "Platform").

If you are accessing our Platform on behalf of, or for the purposes of, another person, including a business or other organization, "you" or "your" also means that other person, including a business organization. You represent and warrant to Teaching Channel that you are authorized to bind such other person to these Terms. Capitalized terms shall have the meaning set forth in these Terms. These Terms are subject to any agreement between Teaching Channel and your applicable institution.

FOR NEW JERSEY RESIDENTS, TO THE EXTENT ANY TERM HEREOF (OR OF ANY RELATED AGREEMENT INCORPORATED HEREIN) IS SUBJECT TO THE NEW JERSEY TRUTH-IN-CONSUMER CONTRACT, WARRANTY AND NOTICE ACT ("TCWCA") AND SUCH TERM, IF ENFORCED AS PROVIDED HEREIN, IS CONTRARY TO OR VIOLATIVE OF ANY CLEARLY ESTABLISHED RIGHT YOU HAVE UNDER STATE OR FEDERAL LAW, SUCH OFFENDING TERM(S) SHALL BE DEEMED OMITTED FROM THESE TERMS (AND SUCH USER AGREEMENT), AND YOUR AGREEMENT TO THESE TERMS DOES NOT AND WILL NOT IN ANY WAY CONSTITUTE A WAIVER OF YOUR RIGHTS UNDER THE TCWCA.

Please review these Terms frequently, as we may revise and update these Terms in our sole discretion and will post any updates to these Terms on this Site. If we make material changes to these Terms, we may notify you here or by means of a notice in our home page. Your continued use of the Platform, or any other service provided through the Platform, means that you accept and agree to the modified Terms. Teaching Channel makes no representation or warranty regarding access to content available through the Services, including the quality of streaming content and the download speed of downloadable content, as the quality (e.g., the resolution of streaming content, as well as the download speed of downloadable content) may be affected by a variety of factors such as a user's location, the content being streamed or downloaded, and the speed of a user's internet connection. YOU ACKNOWLEDGE AND AGREE THAT TEACHING CHANNEL SHALL NOT BE LIABLE TO YOU OR TO ANY THIRD PARTY FOR ANY MODIFICATION, SUSPENSION, OR DISCONTINUANCE OF THIS SITE, OUR PLATFORM, OR INFORMATION PROVIDED ON THIS SITE OR ACCESSED BY YOU THROUGH THIS SITE.

By using the Platform, you further agree that you will not use the Platform or any materials available herein for any unlawful activity or use it in any way that would violate any of these Terms. When applicable, you further agree, as a condition of using the Platform, to ensure that all of your agents, employees, and independent contractors adhere to these Terms.

You may establish one (1) user account (the "Account") for yourself. You agree that you will not allow any others to use your username, password (to the extent a password is required to access the Service), and/or your Account. You are liable for all uses of the Account, and agree to indemnify and hold Teaching Channel, its partners, parent, subsidiaries, affiliates, agents, distributors, contractors, and licensors, including, without limitation, Teaching Channel, harmless for any improper, unauthorized, or illegal uses of your username, password, and/or your Account. This includes illegal, unauthorized, or improper use by anyone to whom you have given permission to use your username, password, and/or Account.

You are solely responsible for all use of our Platform under your username and password and for maintaining the confidentiality of your username and password. You will promptly notify Teaching Channel of any actual or suspected unauthorized use of our Platform or your username or password. If you cannot remember your password, you will be prompted to reset your password by following the instructions on the login page. By accessing the Platform under a username with Teaching Channel, you authorize Teaching Channel to contact you at your e-mail address.

We may provide you with any notices under these Terms by means of a posting on our Platform, by email, or by sending a message to you through our Platform. To opt out of receiving marketing emails from us, follow the "unsubscribe" link on the email to change your user preferences or follow the procedures set forth in our [Privacy Policy](#). However, there are certain system-generated and legal notices that you cannot opt out of without deactivating your account.

As to your use of our Teaching Channel Plus products and services, we will not use, share, disseminate, or otherwise distribute or reproduce User Content (as defined below) submitted on the Teaching Channel Plus platform or module via any other medium, except that we will use the User Content to provide you with the Teaching Channel Plus products and services you have requested.

If YOU CHOOSE TO MAKE ANY OF YOUR PERSONALLY IDENTIFIABLE OR OTHER INFORMATION PUBLICLY AVAILABLE IN A FORUM, COURSE, OR OTHERWISE ON THIS SITE, YOU DO SO AT YOUR OWN RISK.

Data Retention Policy

We will retain your information for as long as your account is active or as needed to provide you services. If you wish to cancel your account or request that we no longer use your information to provide you services, contact us at privacy@teachingchannel.com.

These Terms of Use, together with our [Privacy Policy](#), are the entire agreement between you and us related to your use of our Platform. You understand and agree that, except as expressly set forth herein, these Terms are not intended to confer and do not confer any rights or remedies upon any person other than the parties to these Terms. If any part of these Terms is held invalid or unenforceable, that portion shall be construed in a manner consistent with applicable law to reflect, as nearly as possible, the original intentions of the parties, and the remaining portions shall remain in full force and effect. Our failure to pursue any available claim or defense pursuant to these Terms or otherwise will not be a waiver of such claim or defense. The headings used in these Terms are for convenience only and will have no effect on the interpretation or legal enforceability of the terms herein. These Terms will bind and run to the benefit of each party's permitted successors and assigns. However, these Terms are personal to you and may not be transferred by you, assigned by you or delegated by you to anyone. Any attempt by you to assign, transfer, or delegate these Terms shall be null and void.

Contact Information

Please contact us at 866-701-4614 or info@teachingchannel.com with any questions or concerns.

Notice Of Teaching Channel Terms of Use and Copyright Terms

As further described below, "you," as a Subscriber (as defined below), must have an active license and your account must be in good standing with Teaching Channel Inc. ("Teaching Channel") to access and view any Teaching Channel content; and you are prohibited from sharing Teaching Channel content with non-Subscribers.

This is notice of the Terms and Conditions between Teaching Channel, with an address of Grand Oak Business Park, 2805 Dodd Road, Suite 200, Eagan, MN 55121 and you and any Teaching Channel user ("Subscriber"). Teaching Channel owns and operates a web site and service currently located at <https://www.teachingchannel.com> (the "Site") that provides a resource for educators. Subscribers have accessed and used the Site, and have therefore agreed to the Terms of Use together with the Privacy Policy, the "Terms of Use" set forth therein. Teaching Channel also offers schools, districts, and education organizations the ability to access the Teaching Channel Dedicated Platform, a private collaboration platform for enabling teachers and teacher leaders to work together, which includes a robust library of videos that the organization can add to and customize, and Subscribers can create areas within the Site of Subscriber's own users (which, for clarity, are other Subscribers) and content (collectively, the "Platform"). As described in the Terms of Use, Subscriber's instances or accounts can be subject to termination if not properly used or unlawfully shared, or for any other reason Teaching Channel deems appropriate, in its sole discretion. If you are receiving this notice, you are a Subscriber and, upon the continued use of the Site and the Platform, you hereby agree to the Terms of Use and this notice.

In addition to confirming your agreement to the Terms of Use, this notice serves to inform you that copyright laws apply to original works to control how they are used and if it can be copied, whether marked with a "P" or not. Pursuant to such laws, unauthorized use of such works can result in copyright infringement, which can lead to legal challenges. Legal rights to acquire use of Teaching Channel's videos via the Site is only granted when a subscription license has been purchased by you, a Subscriber, per applicable Subscriber. Any videos being viewed or broadcasted must be viewed or broadcasted to exclusive individual Subscriber accounts, each containing individual usernames and passwords (and/or SSO and URL license agreements) in the form of written consent agreements. The law states, and Teaching Channel requires, that you, the Subscriber, and other Subscribers, always need permission from the copyright owner for any content not created by yourself that is shared with others.

Dimension 2

Learning Design

The product has features that exhibit and promote the design and customization of learning episodes in ways that align with research-based best practices, including those rooted in the learning sciences.

2.1 Growth Objectives

An assignment can display learning objectives alongside the professional learning tasks. The existing demo assignment connects observing classroom structures, analyzing an instructional attempt, and reflecting with a framework.

Small-Group Reading Instruction - PD Cycle 1

Learning Objectives — by the end of this cycle you will be able to:

- Identify the structures of effective small-group reading instruction
- Record and analyze a lesson from your own classroom
- Use the K12 Coalition Core Framework to reflect on evidence of student engagement

Complete the tasks below in order. Your coach will review your submission and share feedback here in the platform.

> Week 1 - Observe, Record, Reflect

Due Sep 03, 2026

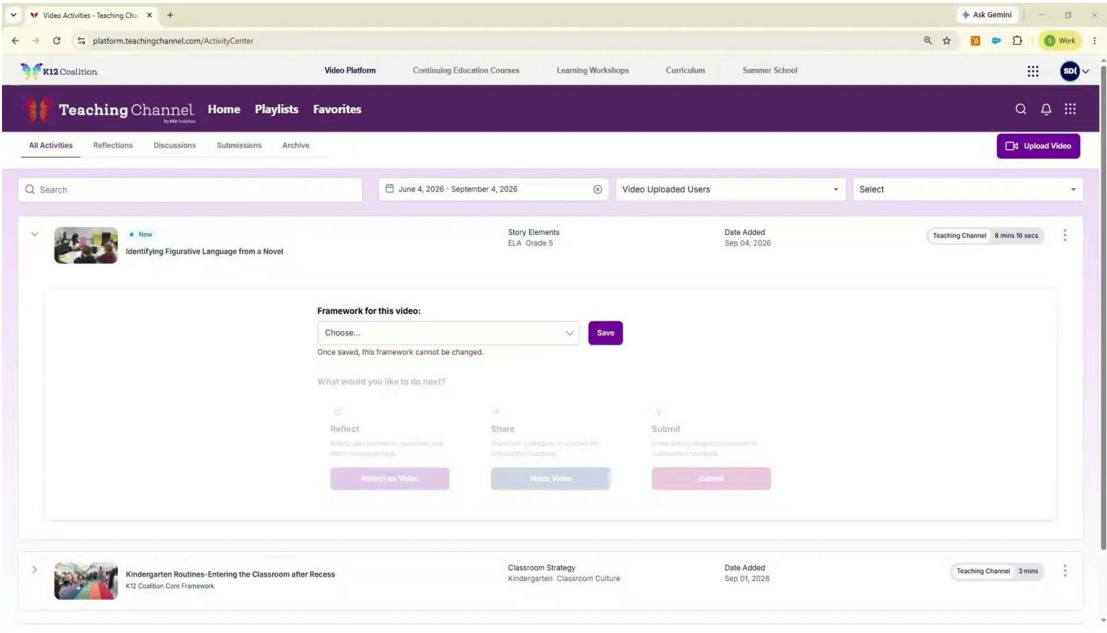

Make the connection visible
Identify the objective.
Open the related section and tasks.
Explain how the activity addresses the objective.

Cropped existing demo assignment, September 22, 2026. Objective display is shown; learning outcomes are not.

2.1 Growth Objectives (Continued)

Framework tags can connect video observations and feedback to instructional expectations. Pair these tags with an explicit learning objective and a task that gives the educator a way to apply it.
The supplied screenshot illustrates framework options in Video Activities. Available frameworks and coaching tools depend on organizational configuration.

Figure 2.1.2: Framework options for video-based observation and feedback.

2.2 Professional Goals

Educators can document a professional goal in a video description, supporting attachment, or reflection. With enabled coaching tools, they can share instruction with eligible collaborators and discuss specific moments through timestamped, framework-tagged comments.

A follow-up artifact or reflection can help the educator revisit the goal and describe changes in practice.

00:13 The teacher has arranged the students around a table to work in the small group. This will allow her to give them the individualized attention they require.

Framework

Document a growth goal, add a relevant classroom artifact, and reflect on specific moments using the available framework.

2.3 Chunking

Authorized assignment creators can divide professional learning into focused sections and tasks. Educators work through the assigned activities in smaller steps, supporting a manageable sequence of learning, reflection, and practice.

This is a space for capturing your learning and exploring a personal problem of practice.

▼ Step 1

Due Jan 22, 2026

Reflection: Choose your problem of practice. Self reflect on your observation feedback and your own practice using the RISE rubric as a guide. What are your areas of strength? What are your areas of growth?

Step 1- Click Here! View Document or Link

▼ Step 2

Due Jan 22, 2026

Playlist

Step 2- Click Here! Watch Playlist

▼ Step 3

Due Jan 23, 2026

Choose a stakeholder to support you through this work. Submit your choice on the Google Doc below. (This is the same document you did Step 1, reflection on) This can be an ITL, administrator, curriculum coordinator, a peer, or someone from outside the district.

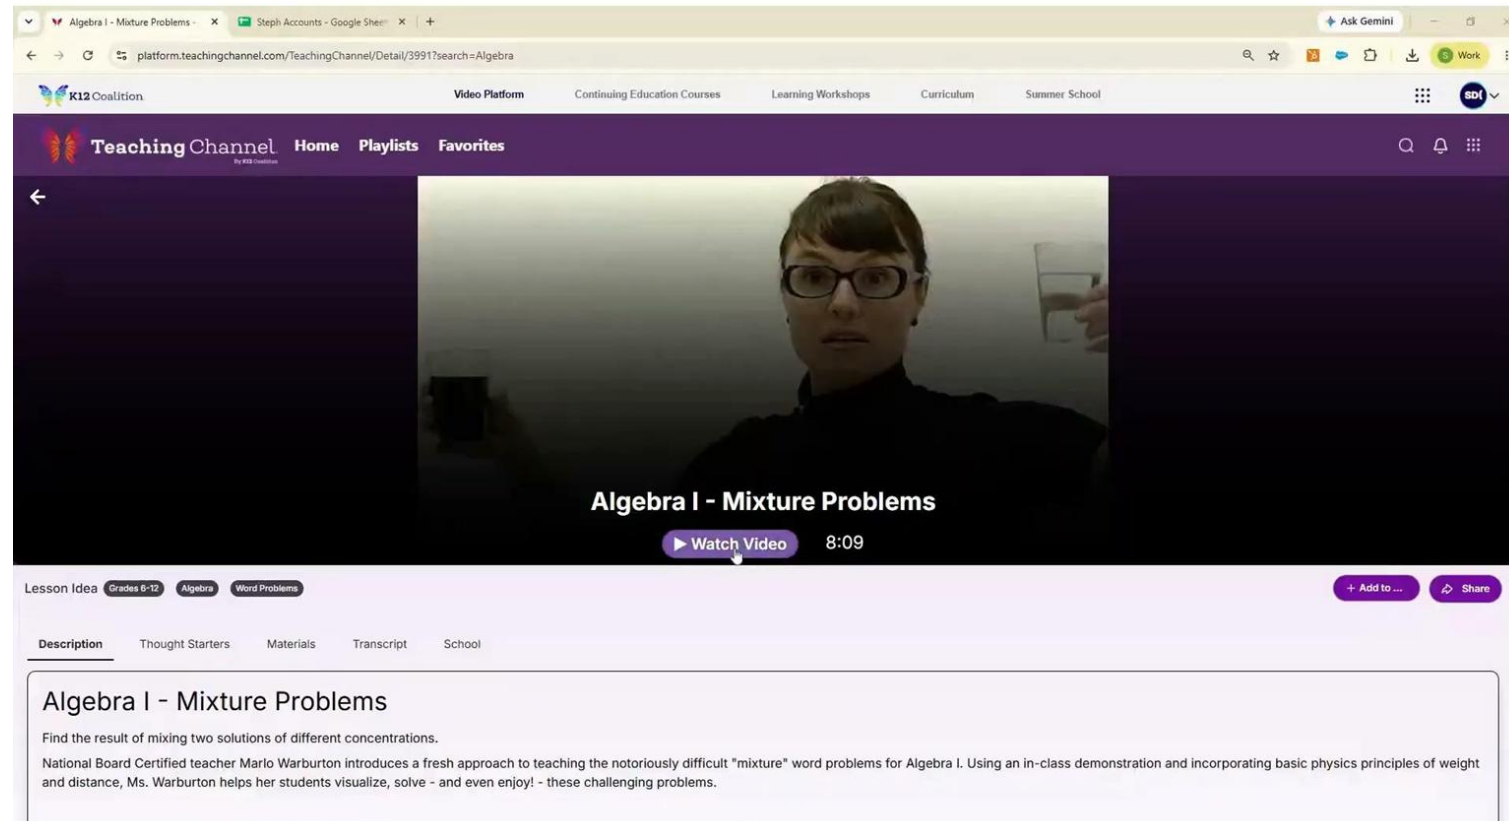

Assignment creators organize objectives and tasks into sections. Assigned educators complete the activities and document their reflections. Users with the appropriate access can review submissions and provide feedback.

2.4 Content Type

Library videos are accompanied by written descriptions, Thought Starters, and supporting materials where available. The video shows instructional practice; the text provides context and prompts educators to connect observations to their own classrooms. Available downloadable materials can support adaptation and application. Resources vary by video.

Figure 2.4.1: Classroom video as an example for professional learning.

2.4 Content Type (Continued)

Figure 2.4.2: Descriptions identify the instructional focus. Thought Starters prompt reflection, discussion, and connections to the educator's classroom or coaching context.

The figure displays two screenshots of a digital interface for lesson ideas, specifically for 'Algebra I - Mixture Problems'. The interface includes a header with 'Lesson Idea', category tags ('Grades 6-12', 'Algebra', 'Word Problems'), and action buttons ('+ Add to ...', 'Share'). Below the header is a tabbed menu with 'Description', 'Thought Starters', 'Materials', 'Transcript', and 'School'. The top screenshot shows the 'Description' tab selected, with a red box highlighting the tab. The content area displays the title 'Algebra I - Mixture Problems' and a paragraph describing a teacher's approach. The bottom screenshot shows the 'Thought Starters' tab selected, with a red box highlighting the tab. The content area displays the title 'Thought Starters' and a list of three questions.

Top Screenshot: Description Tab

Lesson Idea **Grades 6-12** **Algebra** **Word Problems** + Add to ... Share

Description Thought Starters Materials Transcript School

Algebra I - Mixture Problems

Find the result of mixing two solutions of different concentrations.

National Board Certified teacher Marlo Warburton introduces a fresh approach to teaching the notoriously difficult "mixture" word problems for Algebra I. Using an in-class demonstration and incorporating basic physics principles of weight and distance, Ms. Warburton helps her students visualize, solve - and even enjoy! - these challenging problems.

Bottom Screenshot: Thought Starters Tab

Lesson Idea **Grades 6-12** **Algebra** **Word Problems** + Add to ... Share

Description **Thought Starters** Materials Transcript School

Thought Starters

1. How does the "Mixture Picture" help students organize information?
2. How does the "See Saw" method help students write an equation?
3. How does Ms. Warburton builds a sense of success that helps her students persist through a difficult concept?

2.4 Content Type (Continued)

Figure 2.4.3: Explore standards-aligned videos with the appropriate license.

The screenshot shows a video player interface with a light purple header. On the left, under 'Instructional Method', there are buttons for 'Grade 6' and 'Math'. On the right, there are buttons for '+ Add to ...' and 'Share'. Below the header, there are tabs: 'Description', 'Standard Alignment' (which is highlighted with a red box), 'Thought Starters', 'Transcript', and 'School'. The 'Standard Alignment' tab is active, displaying the following content:

Standard Alignment

Common Core Math

- 6 - CCSS.Math.Practice.MP1 - Make sense of problems and persevere in solving them.
- 6 - CCSS.Math.Practice.MP3 - Construct viable arguments and critique the reasoning of others.
- 6 - CCSS.Math.Content.6.EE.A.2.a - Write expressions that record operations with numbers and with letters standing for numbers. For example, express the calculation "Subtract y from 5" as $5 - y$.
- 6 - CCSS.Math.Content.6.EE.A.3 - Apply the properties of operations to generate equivalent expressions. For example, apply the distributive property to the expression $3(2 + x)$ to produce the equivalent expression $6 + 3x$; apply the distributive property

Figure 2.4.4: Supporting materials, where available, give educators resources to adapt for their own classroom context.

The screenshot shows a video player interface with a light purple header. On the left, under 'Lesson Idea', there are buttons for 'Grades 6-12', 'Algebra', and 'Word Problems'. On the right, there are buttons for '+ Add to ...' and 'Share'. Below the header, there are tabs: 'Description', 'Thought Starters', 'Materials' (which is highlighted with a red box), 'Transcript', and 'School'. The 'Materials' tab is active, displaying the following content:

Materials

- 📎 Homework Sheet for Day 1 of Mixture Problems (PDF)
- 📎 Seesaw Method for Mixture Problems (PDF)
- 📎 Teacher Notes for 8th Grade Mixture Problems (PDF)
- 📎 The Seesaw Method: An Easy Way to Work Mixture Problems (PDF)

2.5 Content Adjacency

Video controls, descriptions, Thought Starters, and related resources sit within the video detail experience. Educators can pause or replay a moment and connect it to the surrounding instructional context.

Add to and Share controls support saved collections and collaborative workflows where enabled. Availability depends on account permissions, features, and cohort membership.

Open Add to.
Review Add to Playlist.
Open Playlists to inspect the collection.

Historical capture, August 21, 2026. Current playlist availability was rechecked September 22.

2.8 Applied Examples

The video platform provides a variety of real-world teaching examples that educators can use to support professional learning and coaching goals. Videos include both strong teaching exemplars and lessons where teachers encounter challenges, helping educators identify effective practices, common struggles, and actionable instructional takeaways they can apply in their own classrooms.

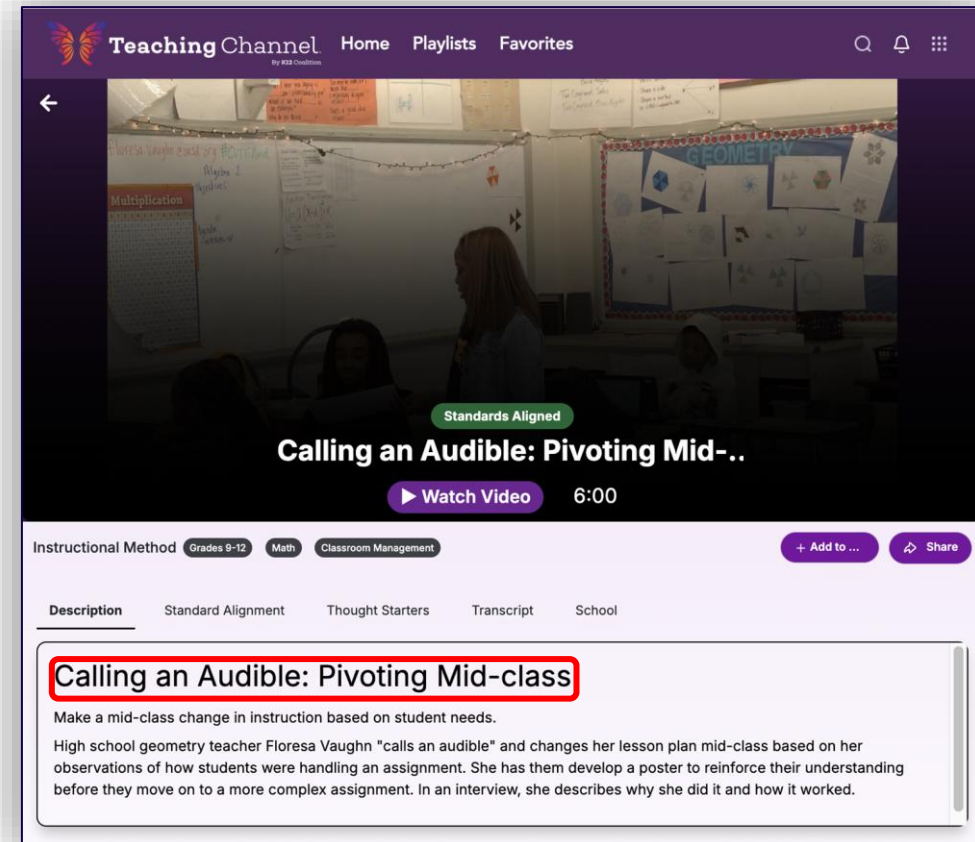

The screenshot shows the Teaching Channel website interface. At the top, the logo and navigation links are visible. The main video player displays a classroom scene with a teacher and several young students. Below the video, the title "Kindergarten Routines-Entering the Classroom after Recess" is highlighted with a red box. The video duration is 3:00. Below the video player, there are tabs for "Managing Students", "Kindergarten", "Classroom Culture", and "Classroom Strategy". The "Description" tab is selected, showing a detailed description of the routine.

Kindergarten Routines-Entering the Classroom after Recess

A structured, calming routine for kindergarteners entering the classroom after recess.

A kindergarten teacher uses a structured approach to guiding kindergarten students back into the classroom after recess. She demonstrates the importance of maintaining order and safety as students re-enter with high energy. Each student is assigned a number, corresponding to their last name, and they must find and stand on their number before transitioning into the classroom. The teacher skillfully manages the group by encouraging safe body movements, such as walking carefully.

The library provides concrete classroom examples that educators can connect to instructional goals. The supplied clip illustrates one such example. [Video Clip 2.8A](#)

The screenshot shows the Teaching Channel website interface. At the top, the logo and navigation links are visible. The main video player displays a classroom scene with a teacher and several students. Below the video, the title "Calling an Audible: Pivoting Mid-class" is highlighted with a red box. The video duration is 6:00. Below the video player, there are tabs for "Instructional Method", "Grades 9-12", "Math", and "Classroom Management". The "Description" tab is selected, showing a detailed description of the lesson plan change.

Calling an Audible: Pivoting Mid-class

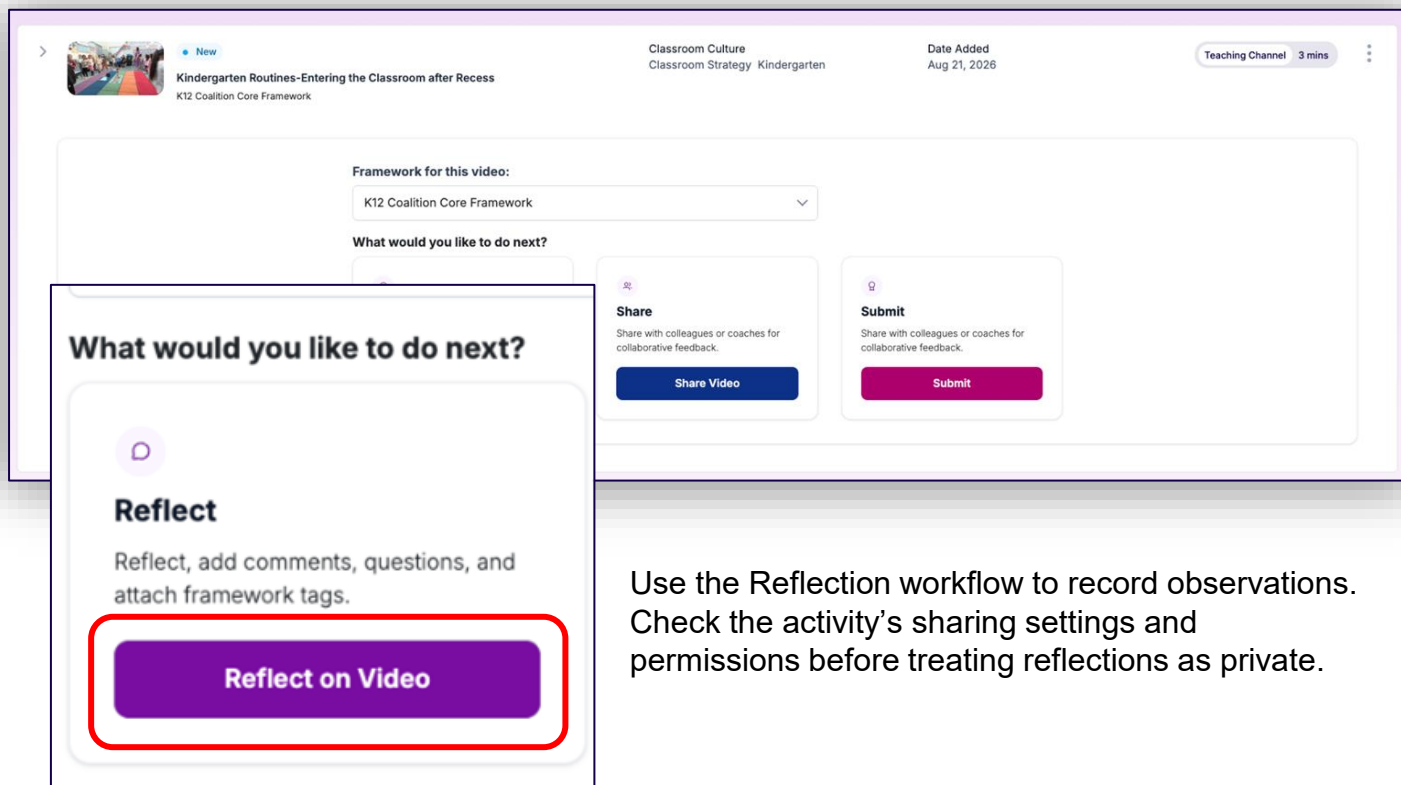

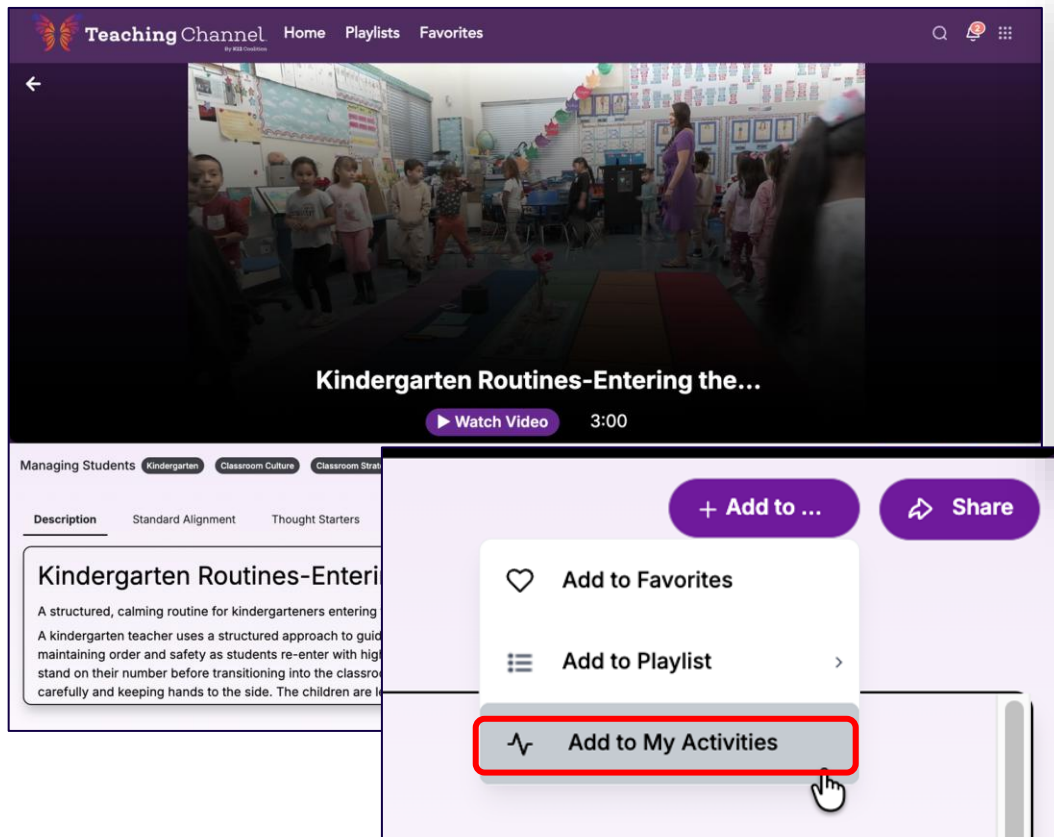

Make a mid-class change in instruction based on student needs.

High school geometry teacher Floresa Vaughn "calls an audible" and changes her lesson plan mid-class based on her observations of how students were handling an assignment. She has them develop a poster to reinforce their understanding before they move on to a more complex assignment. In an interview, she describes why she did it and how it worked.

Contrasting classroom examples show moments that do not go as planned and invite educators to consider an instructional response. [Video Clip 2.8B](#)

2.9 Elaborative Reflection

The platform's Reflection workflow provides embedded tools that support ongoing self-reflection. Educators can use platform videos or upload their own and add time-stamped comments as they watch. Thought-starter questions prompt educators to connect what they observe to their existing knowledge and practice and identify opportunities for growth.

Use the Reflection workflow to record observations. Check the activity's sharing settings and permissions before treating reflections as private.

With enabled Activity Center access, eligible videos can be added to My Activities for available reflection and feedback workflows.

2.9 Elaborative Reflection (Continued)

The platform's Reflection workflow provides embedded tools that support ongoing self-reflection. Educators can use platform videos or upload their own and add time-stamped comments as they watch. Thought-starter questions prompt educators to connect what they observe to their existing knowledge and practice and identify opportunities for growth.

The screenshot displays the 'Reflection on Teaching Channel Video' interface. On the left, a video player shows a classroom scene. Below the video, the title 'Kindergarten Routines-Entering the Classroom after Recess' is visible, along with a description and a 'Thought Starters' section. The 'Thought Starters' section contains three questions: '1. How can assigning numbers help students transition smoothly into classroom routines?', '2. What strategies encourage safety and order when managing high-energy students after recess?', and '3. How does the circular walking routine contribute to a calm learning environment?'. The 'Thought Starters' title is highlighted with a red box. In the center, a 'Leave a Comment' modal is open, showing a comment input field, a 'Type' dropdown menu, a 'Framework' dropdown menu, and a 'Comment' button. The 'Type' dropdown is open, showing options: 'Type', 'Clarification', 'Context', 'Feedback', 'Kudos', 'Observation', and 'Question'. The 'Framework' dropdown is also open, showing options: 'Everyone', 'Demo', and 'Test Reflection Response'. The 'Type' and 'Framework' dropdowns are highlighted with red boxes. Below the comment input, there is a section for 'Show Comments from' set to 'Everyone', and a list of comments. One comment by 'Antonia Fields (Demo)' is visible, with a timestamp of '00:00' and a title 'Test Reflection Response'. The '00:00' timestamp is highlighted with a red box. On the right, another 'Leave a Comment' modal is shown, with a comment input field, a 'Type' dropdown menu, a 'Framework' dropdown menu, and a 'Comment' button. The 'Type' and 'Framework' dropdowns are highlighted with red boxes. The 'Type' dropdown is open, showing options: 'Type', 'Clarification', 'Context', 'Feedback', 'Kudos', 'Observation', and 'Question'. The 'Framework' dropdown is also open, showing options: 'Everyone', 'Demo', and 'Test Reflection Response'.

Users can take their reflections further by aligning time-stamped comments to a framework or using comment types to distinguish observations, questions, and connections before adding context.

Thought Starters provide educators with a structured starting point for reflecting on a video and connecting their observations to their own practice.

Dimension 3

Digital Andragogy

The product is designed to support the development of professional digital learning capabilities, knowledge, and skills. This dimension focuses on how technology can help educators and coaches create the best possible learning experiences, including the social and learning affordances that digital professional development products uniquely offer.

3.1 Authentic Learning

Educators can bring an instructional problem into professional learning by uploading a classroom artifact, describing its context, and reflecting on possible adaptations. The upload workflow provides a place to document the task and supporting information.

Evidence still needed
An educator’s real instructional problem.
A relevant classroom artifact.
An adaptation for their students.
Reflection on the result.

Historical upload-form capture. Capability evidence; an authentic completed task is still needed.

3.5 Collaborative Interaction

The platform supports asynchronous reflection and feedback around library or uploaded videos. Eligible collaborators can leave timestamped comments, use available framework tags, and discuss specific moments of instruction. Sharing depends on enabled features, permissions, and cohort membership.

The screenshot illustrates the 'Share Video' workflow. On the left, a video player shows a classroom scene with the title 'Kindergarten Routines-Entering the Classroom after Recess' and the tag 'K12 Coalition Core Framework'. Below the video, a dropdown menu is set to 'K12 Coalition Core Framework'. Under the heading 'What would you like to do next?', there are three options: 'Reflect', 'Share', and 'Submit'. The 'Share' option is highlighted with a red box, and its 'Share Video' button is also highlighted. A red arrow points from this button to a modal window on the right. The modal window, titled 'Share Video', prompts the user to 'Select colleagues to share this video with.' It includes a 'Select Cohort' dropdown set to 'Demo Cohort 1', a 'Share with...' section with a search bar and a list of users (one user, 'Stephanie Dorsey (Demo)', is highlighted with a red box), and 'Cancel' and 'Share Video' buttons at the bottom right.

Use the available Share workflow to invite eligible coaches or colleagues to discuss a video.

3.5 Collaborative Interaction (Continued)

The platform supports asynchronous reflection and feedback around library or uploaded videos. Eligible collaborators can leave timestamped comments, use available framework tags, and discuss specific moments of instruction. Sharing depends on enabled features, permissions, and cohort membership.

The screenshot displays the Teaching Channel website interface. The main video shows a kindergarten classroom with a teacher and students. Below the video, the title "Kindergarten Routines-Entering the Classroom after Recess" is visible, along with a description and a tag "K12 Coalition Core Framework".

On the right side, there is a sidebar for comments. The sidebar includes a "Show Comments from" dropdown set to "Everyone" and a "2 comments Tag Visualizer" link. Two comments are listed:

- Antonia Fields (Demo)** (1d): 00:00 Test Collaboration Comment. This comment is highlighted with a red box.
- Stephanie Dorsey (Demo)** (24h): 00:45 Think giving the students numbers is a great way to reengage them back from recess to learning. This comment is also highlighted with a red box.

Below the video, there are two red boxes highlighting the comment icons (a speech bubble with a person icon and a speech bubble with a tag icon).

At the bottom of the page, there is a navigation bar with tabs: Description, Thought Starters, Transcript, and School. The "Description" tab is selected, and the title "Kindergarten Routines-Entering the Classroom after Recess" is displayed.

Invited collaborators can leave rubric-based, time-stamped comments and feedback directly on the content.

Dimension 4

Inclusivity

The product helps coaches provide scenarios and real-world examples so that educators can provide relevant learning experiences for interactions with people from many cultures, backgrounds, and abilities. Also creates and supports learner motivation and agency in the learning process.

4.1 Diverse Representation

The reviewed library includes examples related to equity, English language learners, and special education. Videos and Thought Starters invite reflection on varied learner needs. The supplied example focuses on responding to learner differences.

Instructional Method **Grades 5-8** **ELA** **Stations**

Description Thought Starters Materials Transcript School

Meeting the Needs of Diverse Learners

Use stations to provide tailored instruction to students.

Geneviève DeBose describes how she is experimenting with teacher-led small groups in order to provide students with tailored instruction. Before this lesson, she and her co-teacher surveyed students to discover their skill needs, and then formed stations from this data. At each station, students are working on a skill that will help them prepare for a text-based discussion of the book *Wonder*. At the end of class, students share out the specific skills they learned at each station.

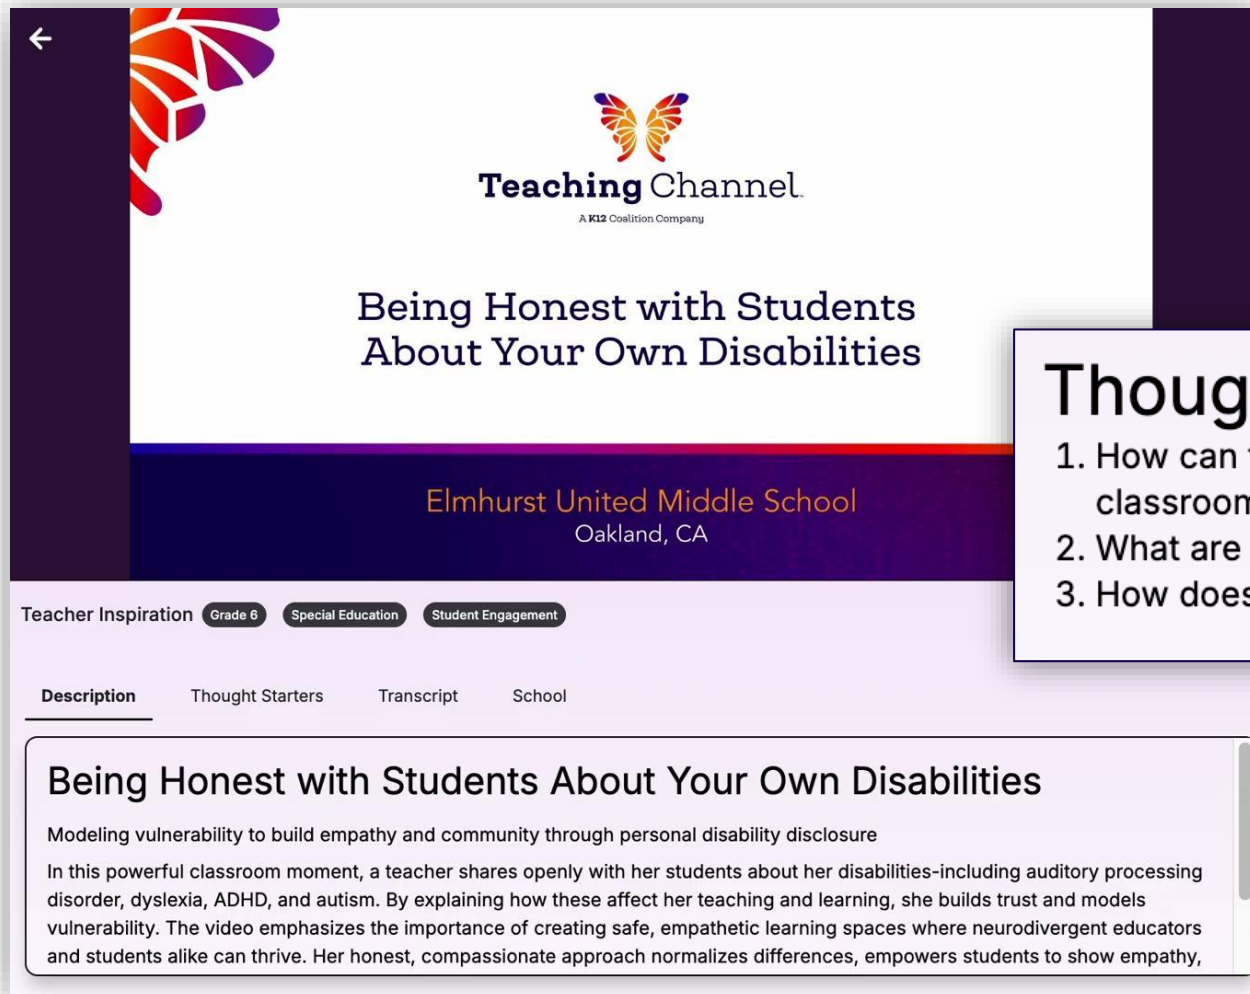

Thought Starters

1. How do Ms. DeBose and her co-teacher Ms. Aldebot use data to inform their planning?
2. How are stations effective in meeting the needs of diverse learners?
3. Ms. DeBose uses her co-teacher and paraprofessionals to lead the stations. How could you plan a lesson like this one if you don't have extra teachers in your classroom?

Thought Starters that encourage conversation and reflection about the video content

4.2 Empathy Opportunity

The video library includes many examples of teachers building empathy and constructive communication through morning meetings, community circles, and classroom discussions. Teachers model perspective-taking by encouraging students to consider others' experiences and viewpoints, reflect on their own perspectives, and recognize how differences can strengthen the classroom community. These examples promote an asset-based approach that values students' diverse experiences and perspectives.

The screenshot shows the Teaching Channel website interface. At the top, there's a logo for Teaching Channel, A K12 Coalition Company. Below it, the video title 'Being Honest with Students About Your Own Disabilities' is displayed, along with the school name 'Elmhurst United Middle School, Oakland, CA'. There are tabs for 'Teacher Inspiration', 'Grade 6', 'Special Education', and 'Student Engagement'. Below these, there are tabs for 'Description', 'Thought Starters', 'Transcript', and 'School'. The 'Description' tab is selected, showing the video title and a brief description: 'Modeling vulnerability to build empathy and community through personal disability disclosure'. The description continues: 'In this powerful classroom moment, a teacher shares openly with her students about her disabilities-including auditory processing disorder, dyslexia, ADHD, and autism. By explaining how these affect her teaching and learning, she builds trust and models vulnerability. The video emphasizes the importance of creating safe, empathetic learning spaces where neurodivergent educators and students alike can thrive. Her honest, compassionate approach normalizes differences, empowers students to show empathy,'.

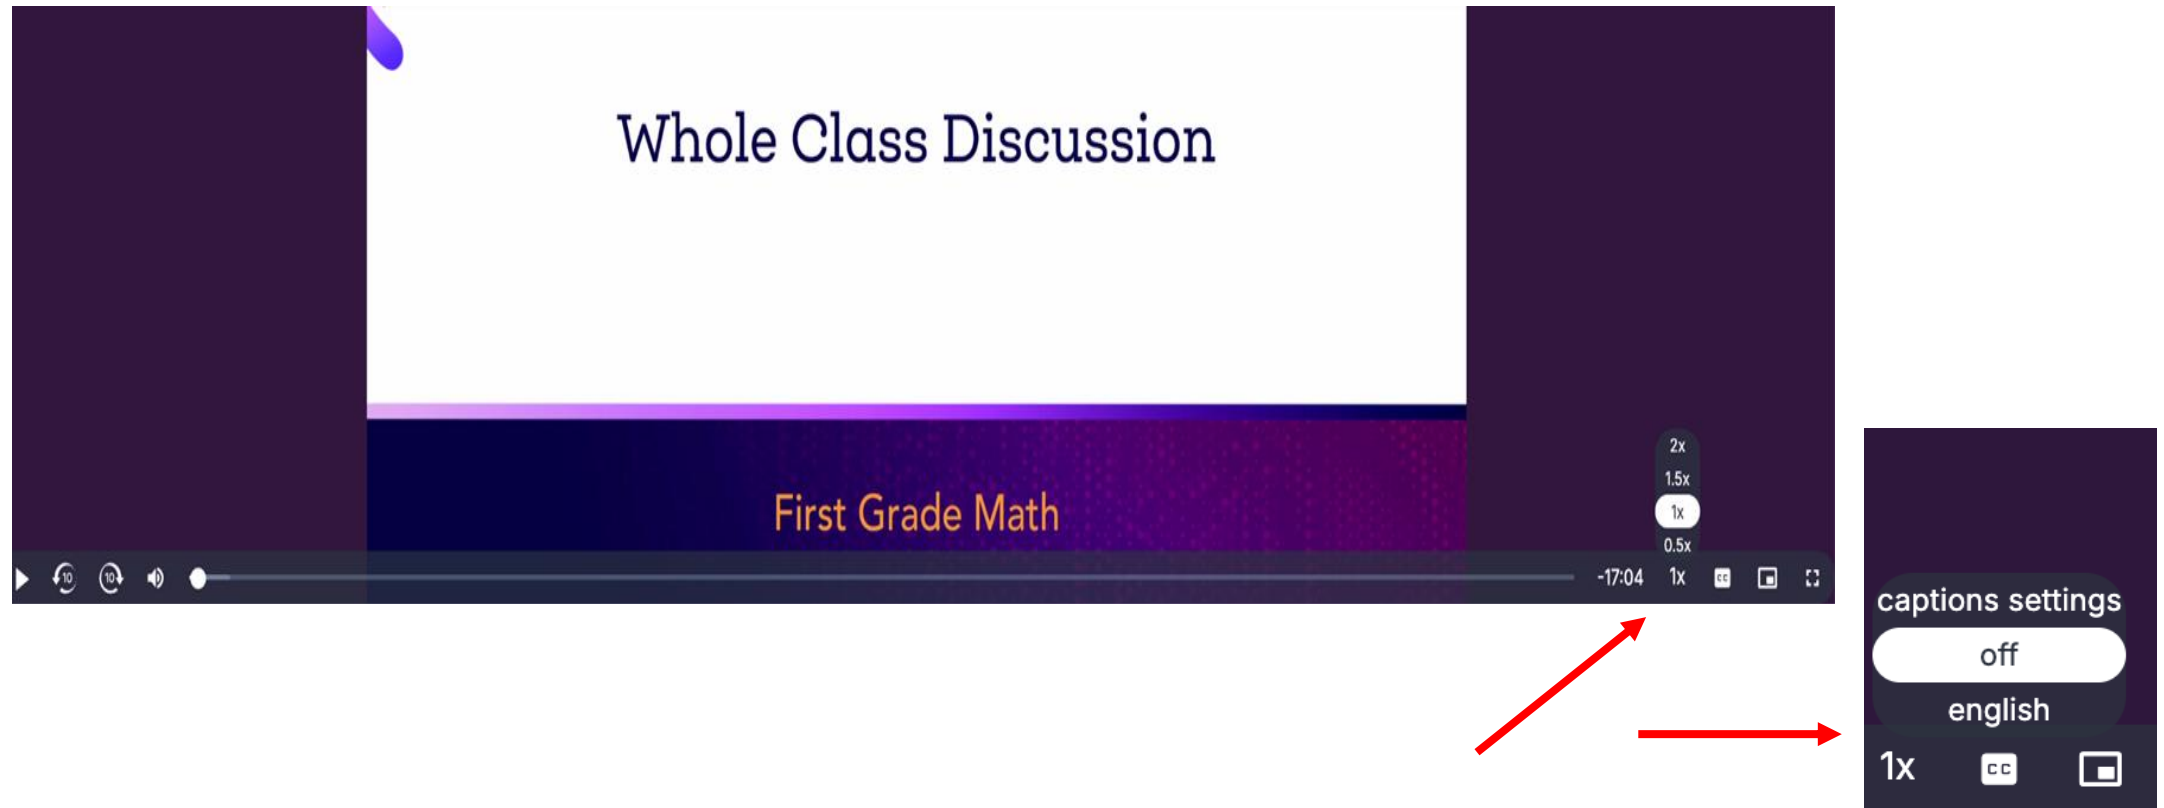

Thought Starters

1. How can teacher vulnerability promote empathy and acceptance in the classroom?
2. What are the risks and rewards of disclosing personal challenges to students?
3. How does normalizing differences support inclusive classroom communities?

Thought Starters that encourage conversation and reflection about the video content

4.3 Accessibility

The sampled library player provides English captions and adjustable playback speed. The August 2026 VPAT documents accessibility support, partial support, and remaining improvements across the EMPOWER Platform.

Caption availability varies by video type. The VPAT identifies gaps for user-uploaded videos and some explainers, as well as contrast exceptions. [2026 VPAT](#)

Dimension 5

Assessment and Data

The product uses assessments that generate data to inform the learner about their knowledge and provide learner feedback.

5.1 Assessment Alignment

Video coaching supports formative review of instructional practice. An educator documents a goal and shares a relevant artifact; an eligible coach can connect observations and feedback to that goal or an available framework. A later artifact and reflection can support a follow-up discussion about changes in practice.

The general-feedback form includes strengths, areas for growth, and next steps. A completed example is needed to demonstrate how feedback connects to the educator's goal.

5.1 Assessment Alignment (Continued)

Begin with an explicit learning objective and identify the task that will provide evidence of it. The platform’s assignment view can place those objectives beside the learning sequence.

Small-Group Reading Instruction - PD Cycle 1

Learning Objectives — by the end of this cycle you will be able to:

- Identify the structures of effective small-group reading instruction
- Record and analyze a lesson from your own classroom
- Use the K12 Coalition Core Framework to reflect on evidence of student engagement

Complete the tasks below in order. Your coach will review your submission and share feedback here in the platform.

> Week 1 - Observe, Record, Reflect

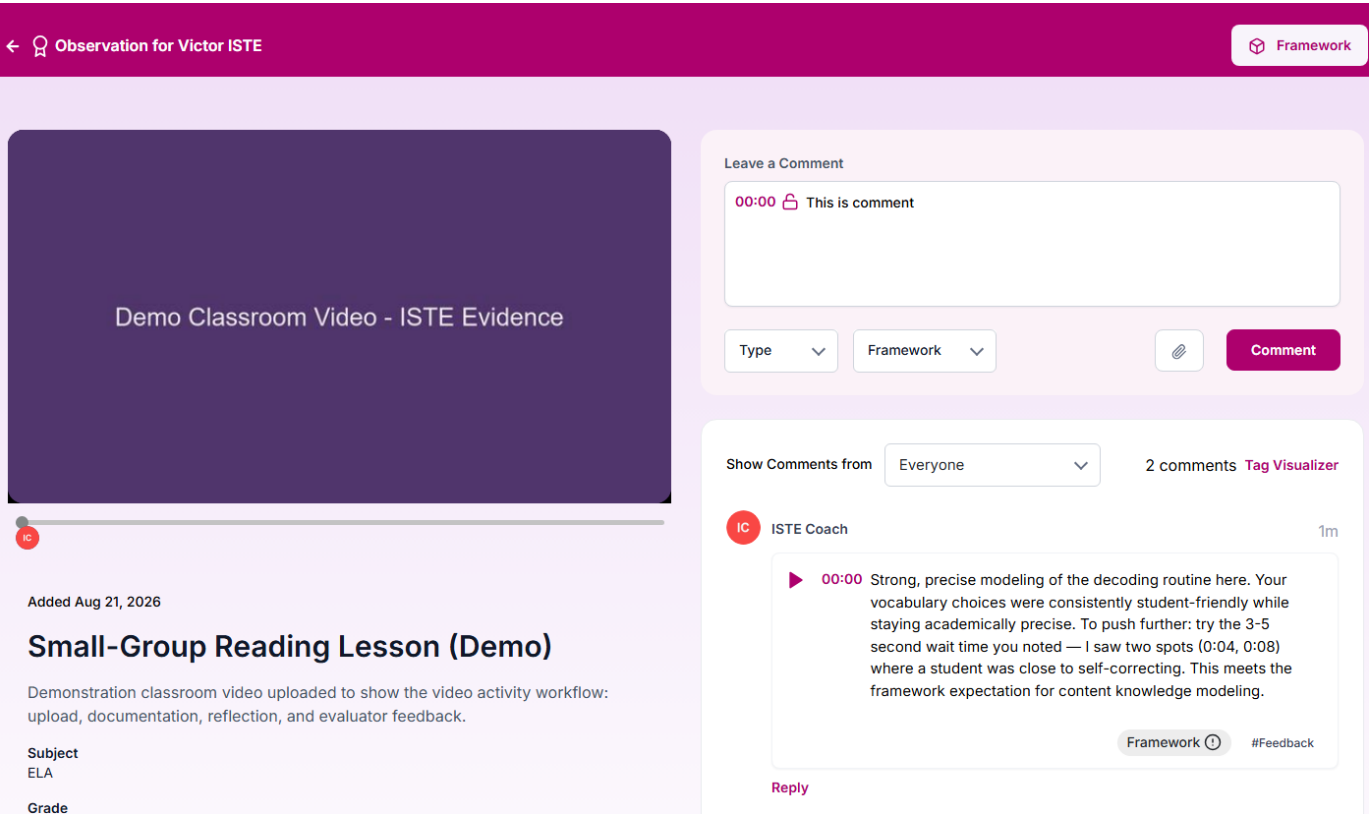

Due Sep 03, 2026

Reviewer focus
Locate the learning objective.
Inspect the task.
Identify the intended artifact.
Explain how feedback will address the objective.

Cropped existing demo assignment, September 22, 2026. Objective display is shown; learning outcomes are not.

5.1 Assessment Alignment (Continued)

Timestamped comments and framework tags can connect feedback to a specific observation. Pair the feedback with the educator’s documented goal to make the assessment connection explicit.

What this proves
Comments and framework tags are available.

What remains
A real artifact and a clearly linked goal-to-assessment example.

Cropped demo workflow with a synthetic title-card video. Not evidence of authentic classroom performance.

5.4 Performance Demonstration

The Video Platform provides an upload workflow for a video artifact and fields for its instructional context. Supporting links and files can be added as documentation.

ISTE Standards for Educators

Learner

Teachers continually improve their practice by learning from and with others and exploring proven and promising practices that leverage technology to improve student learning.

2.1.a Learner: Set Professional Goals

Educators can document a goal for technology-supported teaching in a video description or attachment, then use reflection and feedback to assess an instructional attempt. The evidence should connect the goal, the chosen technology or teaching practice, and a follow-up assessment of its effectiveness. The platform provides documentation and discussion tools for that sequence.

00:13 I have arranged the students around a table to work in the small group. This will allow me to give them the individualized attention they require.

Framework

Reply

Revisit the documented goal when reflecting on the video. Explain what the evidence suggests about the chosen practice, then identify an adjustment to try. A follow-up artifact can make the change in approach visible.

ISTE Standards for Educators

Leader

Educators seek opportunities for leadership to support student empowerment and success and to improve teaching and learning.

2.2.a Leader: Advance a Shared Vision

A shared technology-learning vision requires participation from relevant education stakeholders. The platform can support the discussion through shared artifacts and feedback.

Evidence needed: identify the stakeholders, show the jointly developed vision or plan, and explain how the collaboration advances it. A coaching video alone does not establish those elements.

The Coaching Cycle, Using Video During Observation and Debrief

Using video in coaching helps teachers reflect, refine instruction, and enhance student engagement.

In this video, an Instructional Coach discusses how video can be used as a powerful tool during classroom observations and coaching debriefs. The coaching cycle begins with a pre-conference, where the teacher and coach set clear instructional goals and determine success indicators. During the observation, the coach collects data, including scripting and video recordings, to capture authentic classroom interactions. Video provides an objective record that eliminates interpretation bias and facilitates reflective discussions during the post-conference. The teacher and coach analyze engagement levels, student participation, and instructional clarity to identify strengths and areas for

2.2.c Leader: Model Digital Tool Use

Video reflection can help colleagues examine how a digital resource is selected, explored, evaluated, curated, and adopted for learning.

Evidence needed: show the tool or resource, the educator’s selection criteria, and colleagues discussing its value for learning. Identify the moments in the supplied recording that demonstrate these decisions.

ISTE Standards for Educators

Collaborator

Product connection: Educators can use classroom examples, shared reflection, and eligible collaboration tools to discuss instructional choices with colleagues.

2.4.a Collaborate with Colleagues

Use a concrete joint-planning example to show colleagues working together on a technology-supported learning experience. The supplied lesson-reflection example is a candidate, but its reviewer access and the technology-planning connection need confirmation.

DEMONSTRATION NEEDED

The original video is not accessible anonymously.
Provide an accessible example before submission.

Evidence needed

Who planned together?

What technology-supported learning experience did they design?

What shared artifact shows the decisions?

Where can reviewers view the demonstration?

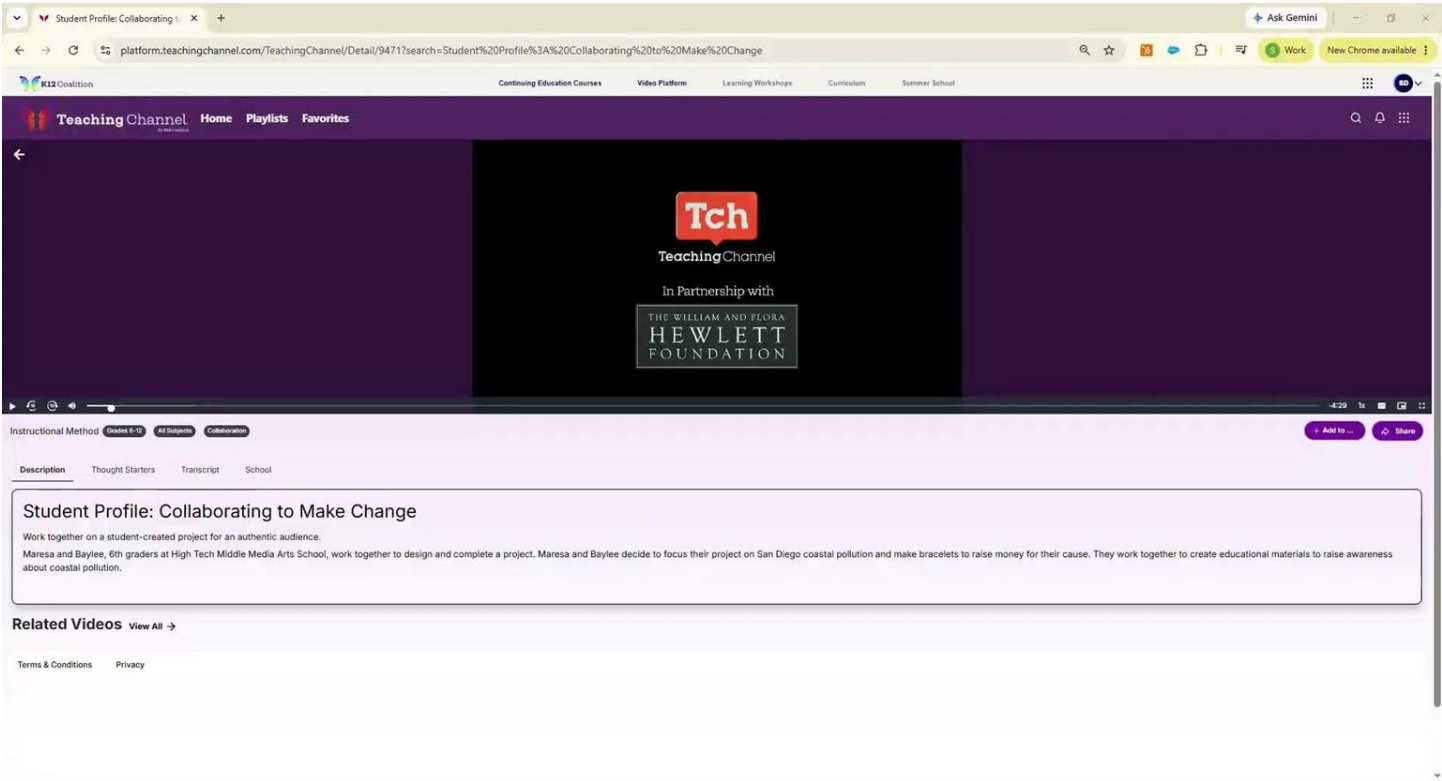

The original linked video requires sign-in. No playable replacement has been verified.

2.4.c Use Collaborative Tools

This indicator calls for students to use collaborative technology to connect with people beyond their classroom.

Evidence needed: name the tool, external partners, student activity, and learning purpose. Confirm reviewer access to the linked demonstration and show the relevant moments.

Teacher collaboration by itself does not establish this student-facing use case.

ISTE Standards for Educators

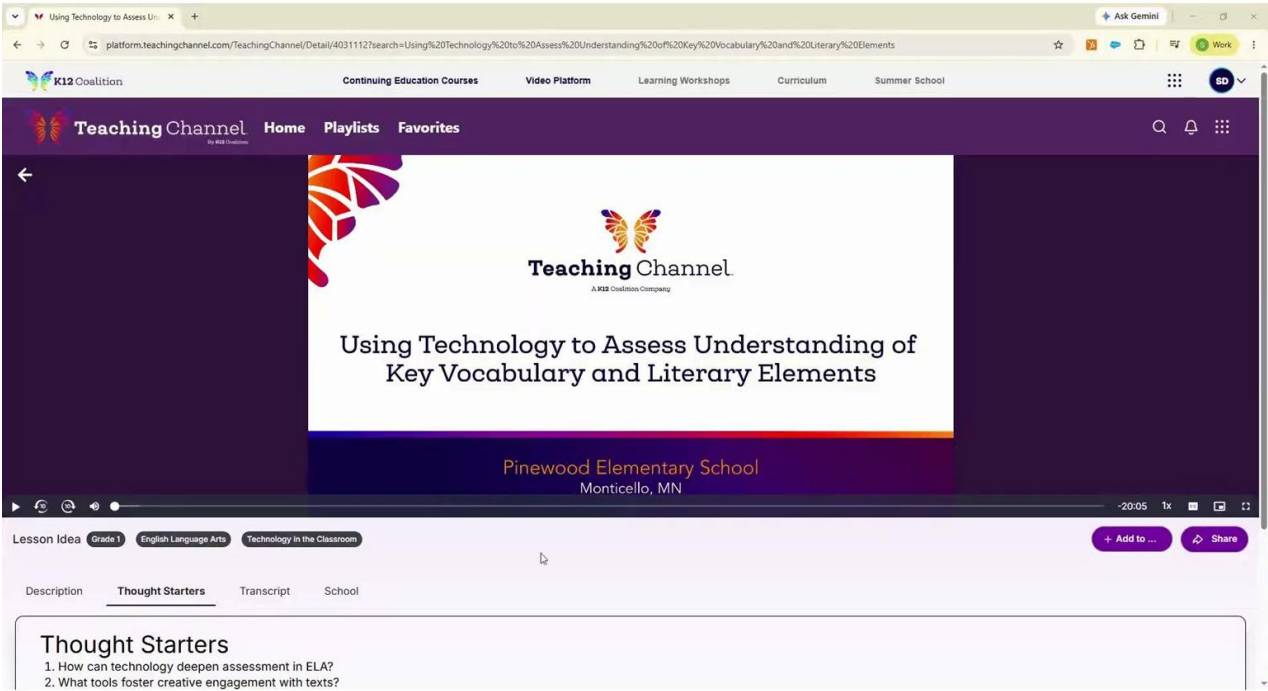

Analyst

Product connection: Video evidence and professional learning data can support reflection and instructional decisions.
Usage data alone does not establish student learning outcomes.

2.7.b Use Technology to Create Assessments

The supplied example proposes a technology-supported assessment use case.

Evidence needed: identify the assessment tool, the learner needs it addresses, and how the responses inform feedback or an instructional adjustment. Include both formative and summative assessment evidence for the selected indicator.

Confirm the linked video’s assessment sequence and provide reviewer access. Describe how student responses lead to feedback or an instructional decision.

ISTE Standards for Coaches

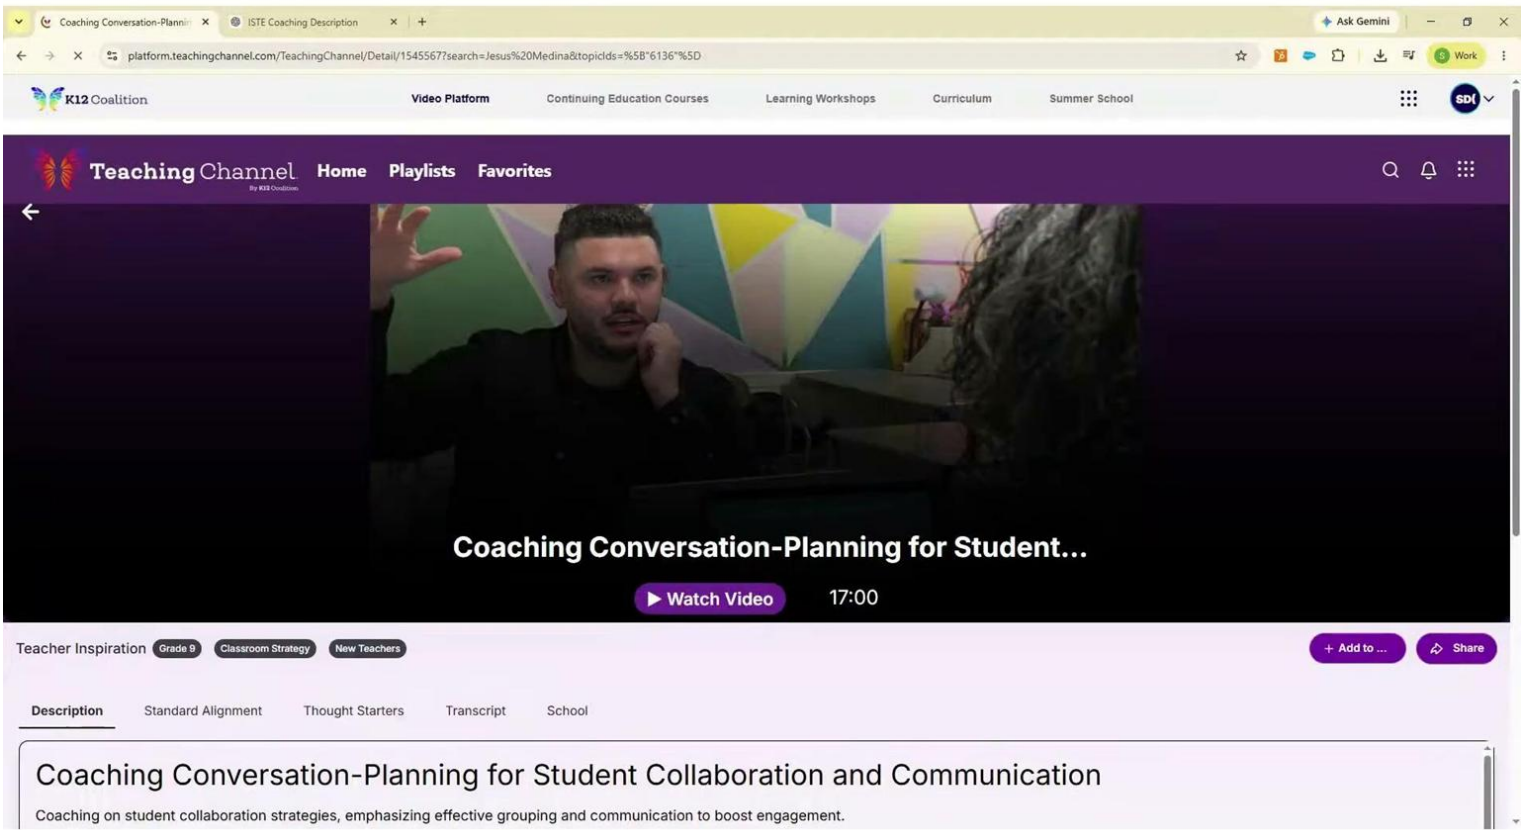

Collaborator

Product connection: Coaches can use shared resources, video reflection, and feedback to support ongoing professional conversations with educators.

4.3.a Cultivate Coaching Relationships

Coaches and educators can use the platform to share resources, document goals, and discuss classroom practice through video and feedback. These tools can support an ongoing coaching relationship.

The supplied pre-discussion example should be connected to a shared resource, an educator's attempt at a strategy, and a follow-up reflection. Pre- and post-conferences are part of the coaching practice, not a verified scheduling feature.

4.3.a Cultivate Coaching Relationships

Shared / Curated Playlists

Teaching Channel’s curated playlists allow coaches to select and organize authentic classroom examples around an educator’s individual goals, interests, or areas for growth. Coaches can share targeted resources that encourage exploration and provide a supportive starting point for ongoing coaching conversations and instructional growth.

Example of a playlist for the teacher in the previous pre-planning video, student collaboration strategies, with focus on some ESL/MLL strategies.

DEMO-April: Procedures and Routines (CCSD NTIA Team Example)

Hello!

The purpose of this space is to allow us to dig deeper into our **Teach Like a Champion (TLAC)** and **Teaching Channel (TC)** resources. Each month, you will be provided with resources and materials that address our learning focus and are aligned to *Teach Like a Champion 3.0* techniques essential for helping to build a classroom culture where academic excellence can thrive.

Structure: After the Introduction section of each monthly module, you will find separate sections for **Teach Like a Champion (TLAC)**, **Teaching Channel (TC)**, and additional **TLAC professional learning opportunities**. The resources include embedded videos and supporting video notes, as well as links to blogs and additional topical resources. The embedded videos are also attached at the end of the **TLAC** and **TC** sections to allow for note-taking and time-stamped annotations directly on the videos. Any resources provided as attachments can be saved to your Teaching Channel My Resources area by clicking on the three vertical dots in the top corner of the resource.

For the **TLAC videos**, you'll notice that each video has a rationale for why you might choose to watch the video, as well as potential focus questions to consider as you watch. Below each **TLAC video**, you will find the complete video analysis notes that are aligned to **Teach Like a Champion 3.0**. When you click on the videos at the bottom, you'll be able to take your own notes (in "My Notes") about what you observed from the video. Additionally, if you click "Supporting Materials," it will bring you to a copy of the video's supporting documents.
